

HIGHER FREIGHT RATE IMPERATIVE ROADS DECLARE

Interstate Commerce Commission Reopens-Hearing of Eastern Rail Appeal

FINANCIAL REVERSES THREATEN RAILROADS

War time Conditions and High Operating Costs Make Boost Necessary

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 5.—The reopening of the fifteen per cent. rate advance case before the interstate commerce commission today was marked by claims of counsel of eastern railroads that transportation facilities and financial stability of the roads are menaced by prevailing rates.

"We cannot afford to make mistakes," declared Samuel Rea, president of the Pennsylvania railroad, in opening the case.

"War time conditions with the resultant increase in the cost of labor and materials make it imperative that an advance over the present rates be granted," asserted counsel representing thirty-eight systems operating east of the Mississippi and north of the Ohio rivers.

If the roads are to handle adequately the great volume of war time traffic, without incurring the imminent risk of financial reverses, better provision, it was pointed out, must be made by the government.

Decision to reopen the case after an interval of four months was announced by the commission in a recent letter to George Stuart Patterson, chief counsel for the roads. Although the hearing affects immediately only those roads operating in the east the result is expected to have a bearing on rates throughout the country.

Daily hearings will continue for several weeks, it is believed, with some prospects that disposition of the case will come before the end of the year.

Other railroad representatives who were on hand prepared to make general statements when the hearing began were Alfred H. Smith, of the New York Central; James H. Hustis, of the Boston and Maine and Frederick D. Underwood of the Erie.

When in May the eastern carriers asked for a fifteen per cent. rate increase they estimated that war time prices of labor and materials would increase their operating charges by \$235,000,000. Later computations, presented today, indicate an increase of \$270,000,000 based on the 1916 volume of business while increased from rate advances since the first of the year total \$97,000,000. The increased operating charges are apportioned as follows: Coal \$78,000,000; wages \$102,000,000; material \$90,000,000.

Attorney Patterson declared that while gross earnings for the first nine months of the present year had risen \$123,789,000, a loss of \$57,291,000 resulted from a corresponding advance of \$168,431,000 in expenses.

The president of the Pennsylvania predicted his plea for an advance on the following existing difficulties of the roads:

Continuous increases in the cost of labor, fuel, supplies, taxes and of obtaining new capital.

Inability to secure and retain efficient labor.

Curtailment of maintenance expenses which curtailment is due in part to inability to secure necessary labor and materials.

Decrease in net operating income notwithstanding large increase in operating revenues, in property investment, in car load and in train load.

Reduction in surplus with consequent effect upon the credit of the carriers.

Inability to secure new capital by the issue of stock with the consequent weakening effect on the financial structure.

Inability to provide improvements and facilities, not only essential for the traffic of today but equally essential for the traffic of the future.

No prospect of lower coal costs is to be found in the government's price fixing program on fuel, continued Dr. Rea. The tentative price of \$2.45 per ton fixed by the government, he said, is over 100 per cent. higher than the price paid by the Pennsylvania system in 1916.

He gave as the annual coal consumption of the Pennsylvania system 13,335,489 tons and stated that the average cost per ton from April 1 to Sept. 30 this year had been \$2.40 or \$1.17 per ton more than last year.

In addition to the wage advances granted train men under the terms of the Adamson law, Mr. Rea pointed out that the increased cost of labor had swollen the pay rolls of the Pennsylvania company \$13,900,000 a year exclusive of increases given the trainmen.

In spite of this wage increase the roads are meeting with constant difficulty in retaining workers, Mr. Rea declared.

The carriers are daily losing the services of a large number of employees, he continued, "and also are unable to retain some classes of new employees for more than a short time. If the transportation machine breaks down through inability to secure efficient labor by reason of inadequate

WOMEN AND DRY LEADERS CLAIM OUTLOOK IS GOOD

Leaders Claim Prohibition Will Carry and Suffrage Act Approved

OPPONENTS ALSO SURE PROPOSITIONS WILL LOSE

Both Were Defeated at Polls By Majorities of Over 80,000

(ASSOCIATED PRESS TELEGRAM) Columbus, Nov. 5.—One of the most strenuous campaigns in the history of Ohio came to a close today and tomorrow Buckeye voters will go to the polls to determine whether Ohio shall have state-wide prohibition and whether the women of the state be permitted to vote for presidential electors.

Prohibition and suffrage will be the only state issues to be voted upon in Ohio. Other elections in the state shall be limited to municipal and township issues.

State-wide prohibition will be presented to the voters as a constitutional amendment, initiated by the dries. Suffrage will be in the form of a referendum on the Reynolds presidential suffrage law, passed by the legislature last winter.

Wets and dries and suffragists and anti-suffragists today claimed victory in pre-election statements.

L. H. Gibson, manager of the Ohio Home Rule Association, stood by his claim that Ohio will go wet by 200,000.

J. A. White, campaign manager for the Ohio Dry Federation, continued to claim victory for the dries by 50,000.

Mrs. Harriet Taylor Upton, president of the Ohio Woman Suffrage Association, asserted that she is convinced that a majority of Ohioans are for equal suffrage and that the suffragists will win if their friends go to the polls.

State Senator C. F. Harding, campaign manager for the anti-suffragists, declared the suffrage referendum would be defeated by from 125,000 to 175,000 votes.

Both state-wide prohibition and woman suffrage has been voted upon twice before in Ohio. In 1914 the wets carried the state by 84,000, and in 1915, by 55,000. In 1912, suffrage was defeated by 87,000, and in 1914 by 143,000.

Never before have the wets and dries campaigned for their cause more strenuously. Both sides have spent thousands of dollars in newspaper, billboard, and street car advertising. Both sides have flooded the state with speakers. Every section has been visited. Tons of campaign literature has been mailed to voters.

DENMARK WILL NOT DETAIN SURVIVORS OF NAVAL BATTLE

(ASSOCIATED PRESS TELEGRAM) London, Nov. 5.—According to the Copenhagen correspondent of the Times, German sailors from the auxiliary cruiser Marie, which is apparently identical with the steamer Crocodile, will not be interned, being regarded as shipwrecked. Nine of them already have gone to Berlin.

The British admiral on Saturday announced the sinking of eleven German ships, including an auxiliary cruiser, by British naval forces in the Cattegat. Copenhagen dispatches on the same day reported that the German auxiliary cruiser Marie had been destroyed in the naval action and that several German patrol boats including the Crocodile were also sunk.

ONE SHIP WAS SUNK. (ASSOCIATED PRESS TELEGRAM) Copenhagen, Nov. 5.—It is officially announced in Berlin that a small auxiliary cruiser has been sunk by destroyers but no other warships are missing.

MRS. LONGWORTH WILL VOTE FOR SCHOOL BOARD

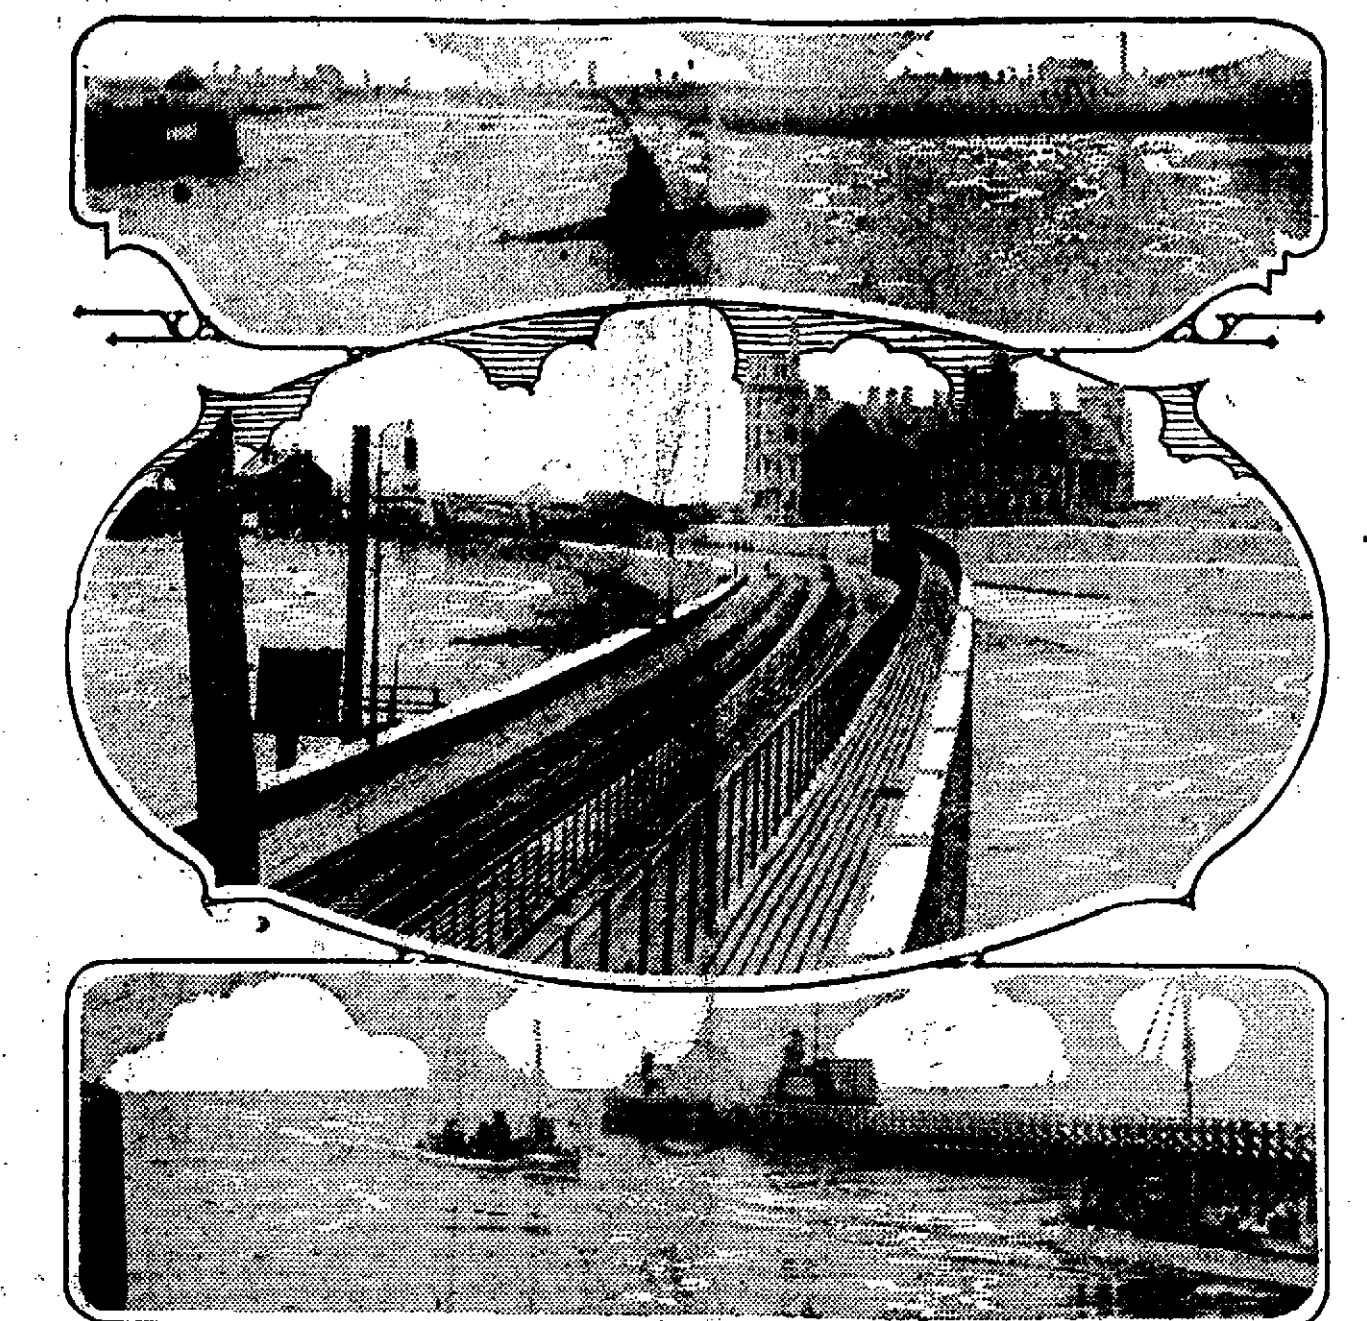

(ASSOCIATED PRESS TELEGRAM) Cincinnati, Nov. 5.—Mrs. Alice Longworth, wife of Congressman Nicholas Longworth, who was out of the city on regular registration days, collected her name at the board of elections today to vote for candidates for members of the school board tomorrow. Mrs. Longworth said this would be the first time she has voted at an election for public officials. Mrs. Longworth is the daughter of former President Roosevelt.

NEW YORKERS IN FRANCE CAST BALLOTS TODAY

With the American Army in France, Nov. 5.—American soldiers, sailors and marines stationed in Paris, in other French cities, and at the American general headquarters, who are legal residents of New York state voted today for state, county and city officials. New York voters with units in other parts of France cast their ballots last week.

The voting in Paris was done at the Hotel Sainte Anne, which is now used for America's barracks and officers.

BRITISH DRIVE AIMS TO HIT SUBMARINE NESTS AT CITIES OF OSTEND AND ZEEBRUGGE

German U-boat at Ostend; German naval station at Zeebrugge (center), and German destroyers at Ostend.

The great purpose of the present German offensive in Flanders is to destroy the German submarine nests at Ostend and Zeebrugge on the Belgian coast. If the British can gain control of the coast as far as Holland they will greatly cripple the activities of the Teuton U-boats and make less easy German air raids on London.

GERMANS CROSS THE "TAG" RIVER TAKE 6,000 MEN

(ASSOCIATED PRESS TELEGRAM) Berlin, Nov. 5, via London.—Austro-German troops have crossed the middle Tagliamento river in northeastern Italy and taken six thousand prisoners, the war office reports. They are advancing toward the west.

ROME ADMITS REVERSES. (ASSOCIATED PRESS TELEGRAM) Rome, Nov. 5.—The Germans have crossed the Tagliamento river the war office announces.

The Austro-German pressure against the Italian northern wing is intensified.

The announcement follows: "The enemy who has succeeded in bringing some of his forces on to the right bank of the Tagliamento north of Pinzano has intensified his pressure against the left wing of our line."

RUSSIANS LICK TURK. (ASSOCIATED PRESS TELEGRAM) Petrograd, Nov. 5.—In the region of the Black Sea coast Russians have driven the Turks from their first line and advanced in some places to the third line, the war office announces. Much booty was captured.

(ASSOCIATED PRESS TELEGRAM) New York, Nov. 5.—Italy's situation appears increasingly grave today with the announcement from Rome that the Tagliamento river, west of which General Cadorna had established his new line after the great retreat from the Isonzo had been crossed by the Austro-German invaders.

The crossing of the river apparently has not yet been in sufficient force to compel Cadorna to decide upon abandonment of the Tagliamento line, but the Teutonic commander undoubtedly will make the most of the opening he has forced to debouch against the Italian positions north and south of the point where he has gained a footing on the west bank of the stream.

That this process is already under way is indicated by the fact that Rome tells of increasing Austro-German pressure against the Italian left wing, where the crossing was effected.

The spot selected by the enemy for the successful attempt—near Pinzano about 40 miles from the mouth of the river and about 17 miles north-west of Udine, was at a point where the marshy ground encountered further to the south begins to disappear, the banks rising perceptibly and the river narrowing down.

If General Cadorna decides to abandon the Tagliamento line, at which it is by no means certain that he intends to fight more than to delay action, his next natural stand for the defence of Venice will be at the Livorno, from ten to fifteen miles further west, or finally at the Piave, some ten miles further in that direction.

Meanwhile, as the opposing armies are struggling for the temporary mastery of the field, the entente leaders, including the British and French premiers and military advisers are in council in Rome to deal with the situation, which admittedly is recognized as grave, coupled as it is with the threat of a flanking movement by the Austro-German forces

DAUGHERTY NAMED AS STATE OFFICER OHIO ELKS ASSO.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 5.—J. W. Smith, president of the Ohio Elks Association, today announced the appointment of the following officers and committees:

EXPECT NEW PEACE OFFER FROM TEUTONS

(ASSOCIATED PRESS TELEGRAM) Copenhagen, Nov. 5.—It is generally believed in diplomatic circles here that the visit to Berlin today of Count Ottokar Czernin, the Austro-Hungarian foreign minister, may be a preliminary to a new peace offer by the central powers.

NEW SPANISH CABINET DECLARES NEUTRALITY

(ASSOCIATED PRESS TELEGRAM) Madrid, Sunday, Nov. 4.—The ministerial declaration, which was published at the conclusion of a cabinet meeting today, calls attention to the exceptional period through which the country is passing. These conditions, the declaration says, caused men of different tendencies to unite temporarily in the formation of the new cabinet whose object is to continue the policy of neutrality, to act promptly and energetically for the settlement of economic problems to give all possible attention to questions bearing on the country's defenses and to summon a new parliament elected independently of all governmental interference.

NO MORE PASSPORTS.

(ASSOCIATED PRESS TELEGRAM) Petrograd, Nov. 5.—No further passports will be issued to Russians who desire to leave the country, according to the Novoe Vremya.

WANT INCREASED FARES.

Washington, Nov. 5.—Increase of a quarter of a cent a mile on one-way tickets and mileage rates and increase in class freight rates ranging from ten to thirty per cent. were asked in applications filed with the interstate commerce commission today by the railroads entering Boston.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 5.—The official casualty list of the losses of American troops in France in their first clash with the Germans was given out today. The list was accompanied by the following announcement:

"The war department has received a dispatch from the commanding general of the American expeditionary forces which states that before daylight Nov. 3 a salient occupied for instruction by a company of American infantry was raided by Germans. The enemy put down a heavy barrage fire, cutting off the salient from the rest of the line. Our losses were three killed, five wounded and 12 captured or missing. The enemy losses are not known. One wounded German was taken prisoner."

The American troops captured by the Germans probably were trapped in their dugouts and forced to surrender or be blown to pieces with hand grenades without a chance for their lives.

This is the only explanation which occurs to army officers today, lacking any details of the fight.

Whether the men killed and wounded received their injuries in hand to hand fighting with the raiding German infantrymen or were struck down by shrapnel is not known.

A single shell, scoring a direct hit in the trench, might have caused all the casualties. That would not explain, however, the surrender of the remaining 12. Under anything short of positive orders, the 12 would have been expected to offer desperate resistance to the Germans crawling up through the darkness to jump into the trench and there probably would have been more than one wounded German left behind when the raiders retired.

The general practice of trench raiding all along the front, however, seems to offer a possible explanation. It has been customary for French, British or German raids to be carried out with a heavy barrage fire used to isolate the small sector of the enemy line which it was planned to invade. As additional protection for the raiders, the artillery fire has covetted a far wider portion of the front than that which constituted the real objective of the raid. The object of the fire is to conceal from the defenders the exact point of attack until the raiders arrived there.

Presumably the American trench raid was an advance post. With only 20 men in it, it could not have had a front of more than 50 or 60 feet. Possibly it was the head of a sap driven out into No Man's Land at right angles with the general trench line, to be used as a listening and observation post. In that case the barrage fire of a few guns could cut the sector off absolutely from its support. The thin line of the communicating trench would be impassable under a shrapnel shower.

With 20 men on a small front, provision undoubtedly would be made for relief of sentries, posted on the fire step of the trench and watching for an attack. Under shell fire, the remainder would seek shelter in dugouts. It appears possible that the three men killed and five wounded may have been the sentries, overwhelmed by the rush of the German raiders in the dark, and that the other 12 were in their shelters to be hailed by the unseen enemy and told to come out or bombs would be hurled in among them. There would be no choice for them but to surrender. A majority of the Germans captured by the British and French in trench raids are taken in this way.

Protected by a heavy barrage fire the Germans advanced across No Man's Land and stormed the American trench.

Can salient. Cut off from reinforcements by the rain of German shells, it is thought the defenders were obliged to meet a force greatly superior in numbers. With the exception of one German captured, nothing is known of the extent of the enemy's losses.

The first fragmentary details made no mention of the location of the fight but Berlin dispatches indicate that it was in the region of the Rhine-Marne canal, in the section defended by the crown prince's forces.

The Germans attacked under cover of the barrage which isolated a short salient occupied by a company of Americans and apparently left the little force at the mercy of their enemies.

The report from General John J. Pershing dealing with the engagement which was made public by the war department early today, omitted to mention whether the trench had been captured. However, the fact that one wounded German was taken by the Americans leads to the belief that the attacking party did not remain to further contest the position but were content to slip

MRS. BELMONT VISITING AMERICANS IN FRANCE

(ASSOCIATED PRESS TELEGRAM) American Training Camp in France, Sunday, Nov. 4.—Mrs. August Belmont is touring eastern France and other sections where American workers are gathering in material for the spring Red Cross campaign in the United States. With her husband and others interested in Red Cross activities she motors from Paris to headquarters and later inspects the base hospitals.

At many places Mrs. Belmont stopped her car along the roadside where she was the object of much interest to the soldiers. She was the first American woman many of the men had seen since they left the United States. Mrs. Belmont visited — where she saw damage caused by bombs and where the families are now being cared for by the Red Cross. She also visited the American canteen at — and expects to enter Rheims if the bombardment is not too heavy. The primary purpose of Mrs. Belmont's visit is to secure first hand information in order that the people of the United States may know what the Red Cross is doing.

STATEMENT OF THE POLITICAL MANAGERS ON EVE OF ELECTION

I predict the election of the entire Democratic ticket by a substantial plurality for mayor and a big majority for the remainder of the candidates, the mayorship being a three-cornered contest. The people of Newark are desirous of a change of municipal control and I believe they will so express their wishes at the polls tomorrow. The campaign conducted by the committee for Mr. Atherton and the other candidates on the ticket has been free from virulence or bitterness and has been commended by all fair-minded citizens. I feel assured that the voter will take that fact into consideration tomorrow and assist in the triumphant election of all our candidates.

HARRY D. HALE,
Chairman Dem. Ex. Com.

We will elect the whole ticket from top to bottom. There has been no mud slinging on the part of our committee or the campaign managers. We have conducted a quiet, dignified and unassuming campaign for our ticket and we will receive a majority of the votes cast tomorrow at the polls.

GEO. H. HAMILTON,
Chairman Rep. Ex. Com.

The campaign for the Independent candidate for Mayor has been clean—none of the personal arguments which might have been used against the other candidates or their managers have been used.

We believe this is appreciated by a large class of our citizens and will be an important factor in helping to pile up the large plurality of at least 700 which we expect for Mr. Jordan.

back to their protecting lines with their prisoners.

That American troops receiving intensive training in the trenches had had their first fight with the enemy was intimated on Saturday in a cryptic official statement from Berlin announcing the capture of North American soldiers. Cable dispatches from the American army headquarters in France also served to prepare the American public for the news of the engagement through announcements that the artillery activity was somewhat above normal although nothing near as intense as on other parts of the front.

The United States troops were taken in charge by veteran French soldiers to a quiet portion of the long line that runs from the North Sea to Switzerland, and for a few days conditions were normal. Dispatches for the past few days have been telling of artillery actions somewhere above "normal," but still not of anything like the furious fire on other portions of the front.

Many French and British military writers have warned America that Germany would hurl terrific blows at the Americans as soon as news of their location reached the German side, and when Americans went in to the trenches war department officials here predicted this might happen. It was pointed out that this was a favorite trick of the Germans when British territorials from Canada and Australia went into the trenches for the first time.

BERLIN PAPER RIDICULES

U. S. PRISONERS CAPTURED.
Berlin, Nov. 5.—Outside the brief reference in the German staff report, no details are available here with regard to the capture of the first American troops in France.

The official bulletin says they were made prisoner in the region of the Rhine-Marne canal, in the section of the front defended by the German crown prince's army.

While the newspapers have played up the capture of the Americans in their headlines, the only comment is made in The Lokal Anzeiger under the caption, "Good Morning, Boys!" The newspaper then says:

"Three cheers for the Americans! Clever chaps they are, it cannot be denied. Scarcely have they touched the soil of this putrid Europe when they already are forcing their way into Germany. Before long they will cross the Rhine and also enter our fortresses. That is express-train speed and American smartness.

It is our good fortune that we are equipped to receive and entertain numerous guests and that we shall be able to provide quarters for these gentlemen. However, we cannot promise them doughnuts and jam, and to this extent they will be obliged to recede from their former standard of living. They probably will become reconciled to this, for soldiering is ever a risky business. Above all, they will find comfort in the thought that they are rendering their slightly president, Mr. Wilson, valuable services, inasmuch as it is asserted he is anxious to obtain reliable information concerning conditions and sentiments in belligerent countries.

"In this way he will obtain first-hand information about things in Germany.

FARM AGENT NAMED BY COUNTY BUREAU IS PRACTICAL MAN

L. L. Mowls of Bayard, O., was elected county farm agent for one year at a meeting of the board of directors of the Licking County Farm Bureau Association held in the Chamber of Commerce room Saturday afternoon. The meeting was largely attended and O. M. Johnson of Ohio State university, state leader of farm agents, was present. W. C. Hall, president of the association, presided.

Mr. Mowls will assume his duties January 1, and will have offices in the court house and eventually in the new federal building when it is completed. He is a graduate in agriculture of Ohio State university where he spent four years as a student. He has had a wide experience as a practical farmer and at present owns and operates a dairy farm in Columbiana county. He was given a period of two weeks in which to dispose of his farm before assuming his duties.

With the selection of Mr. Mowls as farm agent the agricultural bureau of the Chamber of Commerce has accomplished another object to which it was pledged in its platform when organized. The county commissioners agreed to appropriate the \$1,500 necessary for traveling and office expenses while the State University and the Federal Government agreed to pay his salary, under the provisions of the Smith-Lever act.

The temporary headquarters of the Farm Bureau Association are in the Chamber of Commerce. George H. Mosser, the retiring manager, who leaves the Chamber of Commerce December 1, to embark in a business of his own, regards the farm bureau as one of the most important things the organization has accomplished more important than the three new industries it has landed for Newark.

CAMPAIGN OVER; VOTERS WILL SETTLE ARGUMENT TUESDAY

Tomorrow is election day and much interest is being manifested in the result. The polls will open at 5:30 a. m. and close at 5:30 p. m. The voter will be given six separate ballots, municipal, judicial, board of education non-partisan township, constitutional amendment or "wet" and "dry," and the referendum, or Woman Suffrage.

The constitutional and referendum ballots will be counted first, so that the vote can be sent to the office of the chief supervisor of elections at Columbus. Then will follow the municipal, judicial, board of education and township ballots. Those are the instructions given to the presiding judges and clerks of elections.

Owing to the number of ballots it will be rather late before any returns are received outside of the "Wet and Dry" and Woman Suffrage. It will probably be 8:30 or 9 o'clock before the first returns come in on municipal candidates. The result should be known before midnight.

Clerk George H. Hamilton of the board of elections stated today that approximately 300 absent voters' ballots had been cast in the city and over 500 in the county. He estimates that 3,500 votes will be cast in the city.

"The way of the transgressor is hard," sighed the pessimist. "That may be," replied the optimist, "but, at any rate, it isn't lonesome."

The Coming of a GREAT ENGINE

It Makes High Power Out of Low Grade Gas

Men who drive cars are face to face with a condition that becomes more and more serious each day.

That condition is the constantly declining grade of gasoline.

Nearly every engineer has said goodbye forever to high-grade gas.

For the moment, and possibly for all time, multi-cylinders, counter balanced crankshafts, and little tricks with valves give way in engineers' discussions to the "gas problem".

Every alert engineer is bending his utmost to make "one drop of gas now do the work of two".

Just as great situations produce great men, so out of this condition has come a great engine.

It is a Chalmers.

It makes high power out of low grade gas.

Compared with other engines of the same size or thereabouts, it shows:

*More power More rapid acceleration
Greater economy Greater length of life
Greater smoothness*

And an amazing ability to start quickly on a cold day, and to "warm up" without delay.

The Chalmers engine is a simple one. That is one reason why it is so good.

In many engines of the moment the gas passes on its way from the carburetor to the cylinder through a tunnel, which runs all the way through the engine block.

Before the gas gets to the cylinder it is forced to turn many sharp angles and does not become completely mixed with the air.

This results in raw gas running into not only one but all the cylinders, particularly when the car is cold, and especially when running for the first five or ten miles.

In the case of the Chalmers engine this type of intake manifold has been completely eliminated.

A new manifold, termed "The Ramshorn," has been constructed of simple piping. It is on the exterior of the engine. It is a manifold of easy curves so that there are no sharp corners for the raw gas to lodge against and be pushed into the cylinders. The next development was to give the gas the proper amount of heat after it came from the carburetor.

What is termed a "hot plate" is built in at the top of the throat of the carburetor so that the gas coming straight up from the carburetor hits the "hot plate", the dimensions of which have been worked out very scientifically, and then passes around the easy curves of the smooth manifold in a perfect state of mixture and at the proper temperature to each of the cylinders.

The case of this Chalmers engine has been proved.

1. On August 1 and 2, Joe Dawson drove a Chalmers equipped with this same engine 1,898 miles in 24 hours—faster and farther than anyone ever before had traveled on land, sea or air.

If there's a flaw in pattern, or part, a solid day of bitter, brutal speed will find it.

2. There are over 1,000 Chalmers containing this engine now in use. They check up past all expectations.

Therefore, the Maxwell Motor Company, which has leased The Chalmers Motor Company, has put its O. K. on this engine, and accordingly on the Chalmers car.

90 per cent of any automobile is the engine; and no car can be a bit better than its engine.

So you are safe in writing your check for a Chalmers.

Regarding Union Labor

Under the caption of "Is Mr. Jordan a Chamber of Commerce Man," published in the Saturday evening papers over the signature of A. A. Stasel, it is intended to convey the impression that Wm. M. Morgan, president of the Trades and Labor Assembly, favored Mr. Jordan's candidacy and that union labor leaders were in sympathy with the movement.

It can be stated by no other authority than Mr. Morgan himself that he never told anyone that he favored Jordan's candidacy, and the Trades and Labor Assembly taboos politics at their meetings.

Labor could not endorse a man or body of men who are not in sympathy with their movement, and Mr. Jordan and his managers employed a NON-UNION OPERATOR for the picture machine which they used Saturday evening in the public square, and which tactics disgusted all fair-minded people, for the American voter believes in fair play and a square deal.

Announcement for TOWNSHIP TREASURER.

Editor Advocate:

The election laws of Ohio makes it a law that all township officers shall be elected on a non-partisan ticket. Therefore I wish to announce that I am a candidate for Township Treasurer on the Non-Partisan ticket, and surely will appreciate the support and influence of the citizens of Newark and Newark Township. If elected will endeavor to fill the office with credit to myself and satisfaction to all citizens concerned.

Thanking my friends very kindly in advance, I am, Yours, REES R. JONES.

FOR BOARD EDUCATION

Having been asked in regard to my position as candidate for member Board of Education, I wish to make the following statement:

I will support any practical plan that will reduce the cost of school books and to supply same free as soon as the tax rate will permit.

I believe in liberal appropriations for the schools in order to secure efficient teachers and good school buildings.

I believe when selecting teachers for our schools they should be educated and brought up in our public schools.

I believe that our schools should be free from politics and if elected will work for the best interest of our schools.

RECREATION IN WAR CAMPS OBJECT OF WILLYS' COMMITTEE

Washington, Nov. 5.—An intense nationwide campaign to obtain funds for the war camp community recreation service was begun today and will continue throughout the week. From coast to coast an army of volunteer workers was soliciting subscriptions for a fund of \$4,000,000 needed to provide wholesome surroundings for enlisted men in communities adjacent to the country's military camps. The movement which is under the direction of a national committee, of which John N. Willys, manufacturer, of Toledo, Ohio, is chairman, is the result of an effort on the part of the navy department and war department commissions on training camp activities to re-establish homes for soldiers and sailors when they are on temporary leaves from their training quarters.

On the theory that "if the passion for home be allowed to become dulled the enlisted man will cease to make the supreme sacrifice in its defense," an extensive program has been mapped out for the welfare of the man in the nation's service.

In brief the plan is to establish happy, healthy contact between all American army and navy camps and posts and the neighboring communities.

The fund raised is to be used in such organized work as follows: Building of community club houses outside the camps for soldiers and sailors with all the advantages that the average club possesses in the way of athletic contests, swimming pool, billiards, reading and writing facilities, and numerous other features. Trained leaders are to be employed who will devote all of their time to the work. There are to be moving picture and theatrical performances besides entertainment at which volunteer artists will be on the stage and where also men in the camps will "do their bit" by singing, dancing or acting for the benefit of their comrades.

GRANVILLE

[Special to The Advocate]

Granville, O., Nov. 5.—More than 200 Denison and Granville people bought advance tickets to the Miami Denison game in Dayton, Saturday and it is estimated that many went from here who purchased admissions at the grounds, so that the home team did not entirely lack for rosters. Through an error, word came back that Denison had won and the college bell sent out the glad tidings. The disappointment was correspondingly great when the real score was brought—13-0 in favor of Miami. Manager C. D. Coons and Prof. T. S. Johnson were among those who went with the team, and the latter spoke of the game as a psychological defeat. A costly fumble, an injury to one of the regular squad, etc., seemed to affect the "morals" disastrously.

Miss Margaret Seasholes, who went to Dayton as the week-end guest of friends, has returned.

Mr. and Mrs. E. J. Thorpe hospitably entertained at Sunday dinner Dr. and Mrs. B. E. Lindsey and little daughter, Columbus; Mr. and Mrs. Grove B. Jones, Fowler, Ind.; Mr. and Mrs. Ames Grove, Miss Elmer Grove, Mr. John Grove, Newark; Mrs. E. L. Jones and Mrs. Belle Grove Wright, Granville.

Mrs. J. B. Gold, with her little daughter of Pittsburg, is visiting for a fortnight at the home of her brother-in-law and sister, Rev. Mr. and Mrs. C. E. Stanton. Mrs. Gold, whose husband, a successful physician of Pittsburg, is now in France, is vitally interested in news from the front.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sensitive Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MORAN, 342 E. North St., Lima, Ohio.

Women who suffer from displacement, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

AFTER 9 YEARS OF INTERNAL BATHS

Mr. Addison I. Williams writes Dr. Chas. A. Tyrell of New York as follows: "Regarding the 'J. B. L. Cascade,' I feel it is one of the indispensable articles and should have it in every home. I have not taken 30 worth of medicine since obtaining it about 9 years."

You can be free of rheumatism and constipation, and all the ills which they produce, by an occasional internal bath. The "J. B. L. Cascade" administers these scientifically. It is the invention of Chas. A. Tyrell, M. D., of New York, a specialist on internal bathing. By the proper application of Nature's cure, warm water, it keeps the lower intestine free of all poisonous waste and permits every function to work in harmony and without clogging—hence makes one consistently bright, capable and well.

Hudson Ave. Pharmacy, R. L. Williams, Prop., 32 Hudson Ave., corner Oak St., Newark, will be glad to show and explain the "J. B. L. Cascade" to you, and will also give you free on request an interesting and authoritative book, "Why Man of To-Day Is Only 50 per cent efficient," written by Dr. Chas. A. Tyrell. J. H. SHARRITT

To the Voters

Owing to the limited time to make a thorough canvass in support of my candidacy for the office of Justice of the Peace, I desire to say to those whom I have not been able to meet, that, if elected, I will discharge the duties of this important office in the manner in which the law intends.

Having taken up the study of law as a means by which I might further my aim for a higher education, my judgment shall not be swayed by the possible loss to be derived by being both attorney and court at the same time, neither will I make the office a collecting agency instead of a court of law.

I have never been nor will I ever be a chronic office seeker, rotating from one office to another. I feel as though my easy experience with the public and future aims justifies me in asking your support me at tomorrow's election.

Did booze ever make a child happy?

TO HELP NATURE SHED A BAD COMPLEXION.

Beauty devotees are enthusiastic over the beautiful qualities of mercolized wax. Nothing discovered within recent years accomplishes so much, so quickly, and so cheaply, as mercolized wax. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding complexion defects, it removes them. It actually takes off the aged, faded, sallowness, freckles or blotch surface skin—gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is retarded because of neglect, chronic or nervous tone, mercolized wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one. Youthful, healthy, exquisitely beautiful. If you've never tried mercolized wax get a ounce of it at the drug store, use at night, like cold cream, washing it off in the morning.—Advertisement.

CONDITION OF HOLLAR IS REPORTED CRITICAL

Word reached Columbus last night that Guy V. Hollar, formerly of Newark, head of the information bureau at Union Station, is in a serious condition at Johns Hopkins Hospital, Baltimore, where he had been operated on twice in the last four weeks. His last operation was three days ago, and the critical stage was to have passed last night.

Hollar has been an employee at the Union Station 15 years. He is head of a school of telegraphy for women, which he started when men were called to the colors.

PRACTICAL HEALTH HINT.

Sick Headache.

Exhaustion, indigestion and overwrought nerves are causes of sick headaches, from which many women suffer. If it is possible the patient must go to bed, for an hour or so of complete rest will do more toward restoring the normal condition than all the medicines known.

Take the hair down, part it in the middle and braid it in two loose braids. This will rest the head. A hot water bag placed at the feet will draw the pain from the head, soothe the nerves and restore the normal temperature of the body. A hot cloth on the forehead or a cold one, if the patient prefers, will relieve the pain. Perfect quiet is an absolute necessity, for this induces sleep, which is the quickest and surest remedy. Rest an hour or so if possible, then upon arising eat a very light meal, consisting of some hot liquid, accompanied by toast or a cracker.

MOTHERS OF OHIO Prepare for Trouble!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in Ohio would testify just as do the following:

CLEVELAND, O.—"When passing through the symptoms which come to women of 45, I used Dr. Pierce's Favorite Prescription. It is just right for that period of life, and I do not hesitate to recommend it."—Mrs. MARY E. LUCAS, 9415 Benham Ave.

DAYTON, OHIO.—"It is a pleasure to recommend Dr. Pierce's Favorite Prescription. It was used for woman's trouble. I had used other remedies with little benefit. I was dragging around and tired out but when I had taken several bottles of 'Favorite Prescription' I was much stronger and better. It did me more good than any medicine I ever took. I shall always recommend it and will use it again if I need it."—Mrs. NELLIE M. ALLEN, 43 Adrian St.

CLEVELAND, OHIO.—"I was in very bad condition, all run down, weak and nervous. I got so thin I was a walking skeleton. I tried different medicines, also had the doctor, but did not get any relief. I at last decided to try Dr. Pierce's Favorite Prescription, and this medicine completely cured me of my trouble and built me up in a good, strong, healthy condition. I think it the only medicine for women and am glad to recommend it."—Mrs. ELIZABETH JORDAN, 3724 Tullman Ave.

What have the men who are backing Jordan for mayor done for Newark?

Have they contributed their just dues in taxes? Look at the tax duplicate and learn whether their tax returns have been commensurate with that of the more unfortunate.

Have they helped Newark? It is a well-known fact that 85 per cent of them are tax-dodgers.

Who put Newark where it is today? The very men who are backing Jordan's candidacy.

Civic pride! The voter cannot be fooled with the mask of "civic pride" by these money-grabbing men, who seek to take from the poor man the little he already has. They cannot fool the mass of the people by hiding behind "civic pride."

These men seek to tighten the screws and squeeze a little more money from the wage-earner. These same men endeavored a short time ago to stop the laborer from knowing his true value. They have never paid a living wage—a wage that was commensurate with the profits they were taking from the work the laborer was making for them. Do you call that "civic pride"?

Who will Jordan support if elected mayor? Why, the men who are backing him, to be sure. It's human nature to support or work for the interest of the man, or men, who supports or works for you, and you must admit that fact to be true.

If Jordan is elected, will his supporters move out of Newark to escape paying taxes? Are they tax-dodgers?

Why do the supporters of Jordan want him elected mayor? Is it because they want some favors bestowed upon property they own outside the city limits?

Ask Service Director Christian about some of the "stunts" they have tried to "pull off" on the waterworks department.

FLETCHER SCOTT IS A CANDIDATE FOR RE-ELECTION

FLETCHER S. SCOTT.

Fletcher S. Scott, Justice of the Peace, is a candidate for re-election and asks all fair-minded voters to take that fact into consideration when casting their non-partisan judicial ballots on election day.

There are nine candidates for the office of Justice of the Peace and only one to be elected. It is the privilege of the voter to vote for the man whom he considers best fitted and equipped for that office. Fletcher S. Scott is a practicing attorney, admitted to the bar of the State of Ohio and has been eminently successful with all cases which have been entrusted to him.

Justice Scott comes before the voters of Newark township with an office record of which he is justly proud. His keen insight into the law has fitted him admirably for the office. His court is praised by attorneys who have occasion to transact business there, and seldom is a case carried to a higher court for his decisions will stand the crucial test and are rarely reversed.

Justice Scott now asks the voters of Newark township to return him to office for a second term, and he feels that he is entitled to that consideration on account of the impartiality with which he presides in trial cases and the precise and scrupulous attention which he gives to all business which comes into his office.

Vote for a man who is qualified for the office.

HELP WIN THE WAR.

Women of America:
Help your country; help the hungry women and children across the seas.

Wake to the need of your efforts to save the food which is so mighty a factor in the war.

A little thought, a little self-denial, and you have proved your patriotism. You have helped to gladden the heart of some woman in a foreign land whose child is pinched and wan from hunger.

When a general determines on a great victory he does not ask his army to go out individually and kill a few of the enemy from time to time. He masses his armies and plans his campaign. That is what the United States food administration has done. Have you enrolled as a soldier? In other words, have you signed the pledge-card of the United States food administration? Do your part. Sign at once. Keep your pledge. Food will win the war.

TOMORROW'S ELECTION.

Every man should go to the polls tomorrow. This is not merely a local election for the choice of a mayor, councilmen, school board members and other city and township officials, but it is of state-wide and nation-wide importance because of the suffrage and prohibition features.

The referendum on the equal suffrage measure passed by the legislative comes before the voters for decision and at the same time the men of Ohio are to determine whether this state is to be "wet" or "dry." Either one of these matters should in itself be sufficient to bring out a large vote.

Women in millions of American homes will read the message of the "Home Card" and will follow its suggestions. If enough millions do this, the problem of feeding the allies and ourselves is solved, and the war won. This is the belief of the United States food administration, who hope to organize the American women into a volunteer food conservation army. The duties of these women, as stated by the "Home Card," are merely to eat and serve less wheat, beef, pork, dairy products and sugar, and more of the other foods of which we have an abundance, and which cannot so readily be shipped to our allies.

quiting a keen insight not only common law, but parliamentary rulings. Mr. R. L. Williams, the well-known Hudson avenue druggist, is the Democratic candidate for this position. Those who know Mr. Williams take a keen delight in advocating his candidacy. He is a polished gentleman, a deep student of civic affairs, capable in every way, and his election to the position which he seeks would mean a fair and impartial decision on all questions upon which he would be called to pass.

The election of Mr. Williams would also mean that all legislative matters coming before that body would have immediate attention and there would be no delay and long-drawn-out sessions of the city council. Those voters who support him will have no cause to regret their action, should he be elected, for he will make a presiding official of whom the entire citizenship can well feel proud.

TEACH 'EM TO SHOOT.

A field artillery officer writes home from France to one of the army publications, urging the war department to give our men plenty of artillery practice. Each division of the national army, he says, should have a school of field artillery fire similar to that conducted at Fort Sill, Oklahoma.

This officer argues that the fall and winter are a good time for artillery work, since ranges can then be had on farm land with less interference with farm occupations, and the life of the people in the neighborhood. He complains that there is far too little knowledge of artillery in the army.

All this sounds like good stuff. In the days when we were far from thought of war, it was almost impossible to get congress to appropriate money for big guns and ammunition. There was plenty of money for marble postoffices in secluded hamlets. Artillery practice was regarded as about like a July Fourth celebration, a harmless but useless patriotic blowout. It does cost money, and congress never saw how it would help its members get re-elected.

The educated army men have, of course, studied the proposition out of books. But actually conducting big gun-fire must be another story. When you read that it is the duty of the artillery to fire from far in the rear over the heads of the line advancing to attack, the necessity of precise accuracy is apparent. The soldiers who go over the top keep but a few yards behind their own fire. Any irregularity in the work of the guns would murder our own troops.

Artillery fire is an enormous saver of human life. It pulverizes the enemy's trench system and greatly reduces the resistance the enemy can offer. We shall apparently have a good supply of shells along the trench-line. It needs trained skill to make these shells do their work.

The children of Belgium, thousands of whom are orphans, are to be the objects of special care on the part of the American Red Cross department for Belgium. This department is in charge of Ernest P. Bicknell, formerly director-general of civilian relief of the American Red Cross and now deputy commissioner to Europe. Although the Red Cross war council has already appropriated \$349,354 for relief work among the children of Belgium alone, the total Red Cross appropriations for Belgian relief far surpass these figures. Food and clothing alone have been purchased for the Belgians at a cost of \$173,000 in addition to other supplies.

Looking at the mail which comes to this office several times every day we are led to observe that some people evidently don't know that Uncle Sam now requires a three-cent stamp on letters and two cents on postcards. The exception is made with local or "drop" letters which require only a two-cent stamp.

The polls will open tomorrow at 5:30 in the morning. It's true they will remain open until 5:30 p. m., but take this advice: vote early.

MUSIC IN THIS WAR.

In previous wars music has played a considerable part. Many charges of deathless fame have been made to the rhythm of military bands. Martial music puts heart into a fighting army. As he hears the tingling march, a soldier plucks up his weary feet and concludes his country is worth it after all.

Yet a Y. M. C. A. man just back from a 300-mile tour on the western front, said he did not hear a single band on the whole journey. It was all an intense commotion of great masses of men and munitions. No doubt the army commanders would admit the use of music in a general way. But their minds have been too full of great problems of organization and mechanics to bother themselves about what they would consider a minor issue. Anyway, they would say that a man who could blow a cornet is strong enough to handle a bayonet and would better do so.

In our new camps efforts are being made to teach the men to sing in chorus. It will cheer up many homesick days. As the Canadian war song has it: "Pack up your troubles in your old kit bag."

It will be interesting to see what new war songs will come closest to the soldier heart in this eventful experience. "Tipperary" cheered up the Tommies for many a day, but the Sammies would shoot the man who suggested such old stuff now. No doubt the sentimental old Civil war songs will be heard again.

But the popular spirit of the present day is for rag-time. Soon the camps will be ringing with one-steps and fox-trots, set to words that breathe out threatenings to Kaiser Bill. They will not be so poetic as the old Civil war songs, which people used to sing so tearfully as they sat on the porch steps in the gloomings. But there will be lots of kink in the stuff our soldier choruses will rip out.

SUCCESSOR TO HUSTING.

(The New Republic.)
The death of Senator Husting presents an occasion demanding the exercise of the purest and most intelligent patriotism on the part of the conservative elements in Wisconsin politics. A new senator will have to be chosen by popular vote. La Follette and the anti-war forces will no doubt be in the field with a candidate who combines opposition to the war with democratic views on labor, the regulation of corporations, and taxation. The conservatives may be strongly tempted to set up a candidate whose unimpeachable patriotism is combined with social and economic views that would be characterized as "sound" in financial circles. Wisconsin has a large German population, but unbiased observers report that the state is overwhelmingly in favor of the government's war policies. But Wisconsin is also overwhelmingly democratic in social-economic opinions. She might for the time sink her democratic preferences rather than incur the reproach of disloyalty, but she ought not to have the choice forced upon her. And the country ought not to be subjected to the risk of the defeat of a candidate who has made the issue of patriotism his own. America would be able to discount the result, but the Germans would not discount them. They would hold it for demonstration that the American electorate is opposed to the war, and that they have only to endure until the next congressional elections to see America go the way of Russia.

DECIDING WITH UNCLE SAM.

(Pittsburgh Gazette Times.)
Earnings of the United States Steel Corporation for the quarter ended September 30 are impressive for something more than their magnitude. The total was \$131,876,797 figures more suggestive of a nation's

revenue than of the income of an industrial corporation. But these stupendous profits are not all "velvet" for the investors in Steel. Of the total, \$63,733,013 has been set aside to pay the war income and excess profits taxes levied by the revenue bills passed this year and last. This is equivalent to approximately 48 cents out of every dollar of earnings for the third quarter of 1917 that will go to Uncle Sam.

More than that, this \$63,733,013, three months' estimated war taxes of one corporation, will pay a full year's interest at 4 per cent on \$1,593,325,300 of the second Liberty Loan. If Steel's earnings continued at the ratio of the September quarter for a full year, the war taxes of the corporation would be more than sufficient to pay all the interest for 12 months on the \$5,000,000,000 of bonds for which the people have just subscribed. We were told during the campaign that United States bonds were the safest investment in the world. Can there be any doubt about it in the light of such national income possibilities as are disclosed in Steel's report?

TRACTIONEERING.

(Oklahoma City News.)
Here is a new job for men—and women, too!

Governor James M. Cox of Ohio has announced he will put farm tractors to work in every community in the state—in experiment farms, etc.—to encourage farmers to use them. He considers this his patriotic duty.

Fred C. Croxton, the "Hoover of Ohio," is making a "tractor survey" of the state. Then he will go ahead spreading tractor information.

Both Governor Cox and "Hoover" Croxton say farmers must put the tractor to work—if the world is to have enough to eat; if we are to win the war.

Other states are bound to follow Ohio, which thus has the honor of being the pioneer in "state owned farm tractors."

In no state is the tractor more needed than in Oklahoma, where deep and thorough plowing may mean each year the difference between a crop and no crop.

And so, young men, and old men and women and girls—and even children—begin at once to make yourself tractor-wise, for it is going to be one of the country's greatest industries.

Tractioneering is going to be a better job than chaulfuring.

PRESIDENT FOR SUFFRAGE.

(Ohio State Journal.)
President Wilson has come out in favor of woman suffrage, giving it full endorsement in every state. The governor of Ohio is of the same stand. And the national and state conventions of both parties have declared for the same. Why should we delay longer in establishing this great reform? It is bound to come. The stars in their courses are proclaiming it that way. Why should anyone attempt to delay it? At the election on Tuesday, the 6th, the issue comes to the people under the provision for the referendum. If you are a Wilson man, or a Cox man, or a Republican, or a Democrat, you can only be consistent by voting for sustaining the act of the state legislature giving women the right to vote at presidential elections. So at the coming election the duty is plain, vote to sustain House Bill No. 16, known as the Reynolds act. There is no sense in fighting a policy that is sure some time to be an honor to the state.

Lettuce Leaf vs. Patriotism.

A charming university girl "some-where in America" has been turned down by the sorority that "rushed" her because, at a sorority house luncheon, she ate the lettuce leaf on which her salad nestled prettily. Up to that fatal moment she had "made good" before the critical eyes of the "frat girls" who made mental note of everything she said and did for the verbal clinic that followed. Here was a girl who sat well and rose properly from her chair. She knew exactly how to enter or leave a room, how to hold her fork, what to do with her hands, in what key to pitch her voice, when to go and in what terms she should couch her thanks to her hostesses for their hospitality—but she consumed the lettuce leaf; alas! and black! she ate the lettuce leaf! This charming university girl lives in a Herbert Hooverized home. It had been iterated and reiterated to her that she must lick the Kaiser by licking her plate—in other words, that in these piping times of war she must not waste a scrap of human food. Our charming girls simply must not be penalized even by a sorority for their love of country, their regard for the humanities and their obedience to the food administrator.—Minneapolis Tribune.

Royal Uncrowners.

Is the king row to be further depleted, in this great game that is being played, will Gustav join Nicholas and Constantine on the park bench? It is freely predicted that such an event may take place. And the reason given is, again, a woman. Queen Victoria of Sweden is of German birth, and her influence, which is powerful by reason of her position and her cleverness, is stated to be in active operation on the side of Germany. The King is a mere puppet in her hands, and, while leaning, the diplomatic arm of it is largely recruited from members of Swedish aristocracy who come under the queen's scener of influence. Gustav is much in the same predicament as was Constantine with Queen Sophie. And his fate will be similar should he not stand on his own legs and do the things one would expect of a monarch.—Buffalo News.

Our Troops in France.

The presence of the American troops in the trenches in France is in fact, as the official announcement states, but a continuation of their training, but it is a welcome step toward their actual participation in the war. The hearty welcome that is given to our boys not only by the French companions in the trenches but by the British and French press, proves the generous indulgence with which our Allies regard our efforts to get into the fray. The events in Italy, and the probability that the French government will endeavor to send reinforcements to that country, indicate that there will be a great and immediate demand for our forces at the front as fast as they can be brought there safely.—Boston Transcript.

SOCIAL EVENTS

(Society Editor, Auto Phone 28128.)
Cunningham—Hildreth.
Word has been received here that Mrs. Helen L. Hildreth, formerly of this city and Lieut. Harry Y. Cunningham of Charleston, S. C., were married Oct. 23, 1917 in Philadelphia, Pa. Lieut. Cunningham is one of the government's most valuable directors having been connected with the Navy Yard nineteen years. He will remain in Charleston as Superintendent of the Yard.
Mrs. Hildreth is a daughter of Mr. and Mrs. C. B. Walker of Charleston, S. C., also a niece of Mrs. M. J. Reese of Granville street and Mr. C. L. Wilcox of Ninth street, and her many friends here extend their hearty congratulations to them.

An enjoyable masquerade Hal-lowe'en party was given at the home of Mrs. R. M. Johns in Wilson street. Games were indulged in, also music and dancing.
Refreshments were served to the following guests: Misses Clara Meyers, Dolle Swick, Fay Betts, Grace Matthews, Mable Matthews, Artie Youse, Mable Senebaugh, Cora Bretch, Mildred Hartman, Nora Johns, Ella Bogent, Edith Peterson, Freda Gress, Stella Senebaugh, Henrietta Reinbolt, Freda Reinbolt, Mrs. R. M. Johns and Mrs. S. A. Weakley. Mesdames Walter Johns, Alva Johns, Robert Roboe, Russell Schrigley, Harvey Smith, Ollie Clark, John Buckner, Walter Reinbolt, Fritz Oberfield, Taylor Golden, Herman Bonham, Charles Lee, Clarence Winters, Carl Nelson, Michael Buckner, Bertis Rein-bolt and John Gardner.

The members of the Sesame club delightfully entertained their husbands with a Hal-lowe'en party, Wednesday evening at the home of Mr. and Mrs. Lawrence Schaller, north of the city. The house was beautifully decorated in keeping with the season. The guests were led to the cellar and introduced to two very mysterious ghosts. The remainder of the evening was spent in games and a contest. Mrs. Morgan Davis and Mr. Richard Ingram winning first prize, and Mrs. Charles Haines and Mr. J. L. Frenier second prizes.

At a late hour a delicious Hal-lowe'en luncheon was served to the following: Messrs. and Mesdames L. A. Gault, C. F. Wendelken and daughter Rhea Mae, J. L. Frenier and son Carl, Richard Ingram, C. T. Wilcox and daughter Geraldine, Henry Fricke and son, Delbert, George Jackson, Wilbur Gault, Will Gallacher, Walter Trickey and daughter Marie, Mrs. Morgan Davies, Mrs. Charles Haines, Mrs. Samuel Gallagher, Miss Mary Davis, and Mr. and Mrs. Lawrence Schaller and daughter Anna Mae.

On Wednesday evening Miss Ruth Swisher entertained the Willing Workers and Young Men's Bible classes of Newton Chapel M. E. church with a Hal-lowe'en masquerade. The house was decorated throughout, suggestive of the season, and the evening was delightfully spent in games, music and a guessing contest. A wicker roast and marshmallow toast were also enjoyed.

Those present were Mr. and Mrs. Levi Lynn, Mr. and Mrs. Fred Sheets, Mr. and Mrs. Harry Layman, Mrs. Eura Biggs, Mr. and Mrs. John Swisher, Misses Edna Weisheit, Myrtle Phillips, Lulu Layman, Sarah Weisheit, Lucille Brooke, Mary Bower, Anna Van Winkle, Orisa Hay, Altha Swisher, Messrs. Harry Phillips, Karl Jackson, Doris Clark, Charles Phillips, Ray Wilson, Lee Brooke, Paul Wilkin, Harry Eschelman, Ed. Gist, Raymond Bell, Russell Holter, Wesley Swisher, Desso Phillips and Jesse Swisher.

A very pretty children's party was given Saturday afternoon by Mrs. A. V. Leak at her home in Linden avenue in celebration of the fourth birthday anniversary of her little son, Rex Alvin. Yellow and black of the Hal-lowe'en season were used and a nut hunt afforded much fun. The table was centered with a birthday cake and small yellow baskets filled with candy were given as favors. Ten little guests were present.

Hafers entertained the members of their dancing school with a masquerade party Tuesday evening. About fifty guests were present.

Mrs. William P. Young, of North Fourth street, announces the engagement of her daughter, Miss Christine Young, to Mr. Thomas Ambrose Feeney, the bans for the approaching marriage being published at St. Francis de Sales church on Sunday.

Miss Young was graduated from the St. Francis de Sales high school, while Mr. Feeney but recently completed the law course at the University of Pittsburgh, and after passing the state bar examination, entered the military service. He is now a member of the officers' reserve training camp at Ft. Benjamin Harrison. No date has been set for the wedding, but it will take place this month.

Mrs. Margaret McGranahan.
Mrs. Margaret McGranahan, aged 90 years, died at the home of her son James McGranahan, 444 Maple avenue, with whom she had been making her home for the past year, on Sunday afternoon at 2:00 o'clock.

Short funeral services will be held this evening at 7:30 o'clock at the Maple avenue home, by Rev. Calvin G. Hazlett and the body will be taken to Jamestown, Pa., for burial.

Milady's Boudoir
Relaxing the Mind.
In this workaday world of noisy hustle and bustle few of us give our minds enough relaxation. From the moment we open our eyes to reality until the time when they beg for rest and quiet, we keep ceaselessly on the move. Helter, skelter, we tear through life.

In times, during illness, and its long hours of convalescence we realize how much we have lost by not giving our minds a few moments each day to rest. Must we all be obliged to have to lie on a sick bed to realize this vital fact?

Ask yourself before you close your eyes each night, how many moments during the long day of rush and hurry, you have given freely to your mind for relaxation and meditation, and if you are truthful to yourself, you will be surprised at your selfish admittance.

Relax, meditate, day dream. It will do your mind a world of good. Allow your mind to wander into the impossible realms of imagination. Allow it full rein during every moment that you can spare from your daily duties. It will keep you young and keep the wrinkles from appearing before their time. The mind, like every other part of the body, craves for playtime and moments of recreation.

Possession is nine points of the law. It isn't until a man is wedded to his art that he feels he can neglect her.

ABOUT PEOPLE

Mr. J. W. Monroe, master mechanic of the Pennsylvania railway company at Cambridge, O., made a business trip to Newark, Saturday.

Miss Frances Green of Winchester, Va., is visiting her uncle and aunt, Mr. and Mrs. F. D. Walker on Everett farm, for a few weeks.

New York Philharmonic, Dec. 19.

Our Boys and Girls
Very delicate children whose appetites are poor and who do not do justice to their regular meals, should be given an extra allowance of hot broth or milk or an occasional cup of chocolate, between meals with bread or a rusk. Children should never be hurried off to school in the morning with an insufficient and rapid eaten breakfast.

During school days the meals must be abundant and must contain a sufficient proteids, starches, sugars and inorganic salts to meet the constant demands for these constituents of perfect food. Suppers should be light, not stimulating and the food should be made savory and appetizing.

Every Day Etiquette
"What is the proper thing for a man to do when he goes to call between the acts on a woman friend in a box?" asked George.
"If the door is closed, the courteous thing to do is to knock. If curtains only are separating the box from the corridor, the visitor should enter quietly and greet the occupant with whom he is friendly," said his father.

Here is Some Fashion News.
The fashion editor of the Women's Home Companion says in the November issue:
"Fashion has appropriated the hat that our boys in khaki wear. And now the girls are going to wear it, too. It is called the 'Sammy.' It is satin, however, instead of felt, and black is the color. There are dents in the crown just like the real military hat. Around the crown is a gold cord."

Waistcoats of metal brocade, of lace, of braided satin are all the rage. The darker the tailored suit, the gayer its waistcoat.
"All the shops are showing new neck ribbons. Some about one-half inch wide are of silver ribbon finished at the ends with three shaded pink rose petals. Others are of black satin embroidered in beads in Chinese colors and finished with bead fringe."

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and stomach troubles.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

"In a Workmanlike Manner"

These words appear in most specifications for electrical work, as well as for bricklaying, carpentry, painting, etc. If the spirit as well as the letter of this injunction is followed, a thoroughly pleasing as well as substantial job results.

To a responsible electrical contractor the words, "In a workmanlike manner" means not only mechanically and electrically correct—but good to look at as well.

Good workmanship is the result of long experience, careful supervision, and confidence created by knowledge.

Your electrical work will be done "In a workmanlike manner" if done by the undersigned firm.

[ASSOCIATED PRESS TELEGRAM]

New York, Nov. 3.—Free liquidation of high class stocks continued today was resumed. While the first half hour's trading in Pacific, foreign and trading coal carriers were down 2 to 4 points, some established lowest quotations in their history. Steel made an extreme decline of points to 92½, its minimum of year. Coppers and the general list added 1.

PAYS TO GO TO MARKET

Women of Toulon Buy Foods Much as
Is Custom in Some Ameri-
can Cities.

To the continental woman, market-
ing is both a time-hallowed custom and
a leading outdoor sport. Europe has
always been far more economical than
America, and this method of careful
food purchasing is one of the first aids
to economical housekeeping, according
to Nilsen. You see what you are
getting, there are always opportunities
to pick up bargains, and there are no
delivery costs. Marketing by telephone
is almost unknown in Europe outside
a few big cities, because the telephone
is not nearly so much a household in-
stitution there as here.

Toulon market is open every day
from seven o'clock until noon. If you
are a Toulon housewife of the upper
class, you sail forth about 10 a. m.,
followed by a maid with a basket or a
cord bag to carry your purchases. If
you are not rich enough to have a
maid, you carry your own vegetables
in an embroidered cloth bag swinging
from your arm. This cloth bag is an
important point, because it marks you
as an independent housewife. If you
were to carry a basket or a cord bag,
you would be taken for somebody's
maid.

On either side of the pavement un-
der the plantains are ranged scores of
stalls covered with drab awnings. Most
of the stallkeepers are women—
Frenchwomen, Italians, Corsicans,
Spanish. They sell all the vegetables
known to botany, and delicacies like
mushrooms, snails and ravioli, which
is a dish made of macaroni and meat,
as well. There are booths for the sale
of flowers and medicinal herbs, and
chickens and doubtful looking cuts of
meat. The cream of the custom comes
between nine and eleven. In the last
half-hour there is a great bargain sale
of everything that will not keep until
the next day and the poorer classes
rush the booths to purchase slightly
damaged but nourishing goods at
ridiculously low prices.

Our schools have grown in reputa-
tion until they are recognized not
only in Ohio but throughout the
middle west as among the best pub-
lic schools in the country.

During the years I have been a
member of the Board, I have fear-
lessly advocated those things that
have proven of worth to the schools.
If re-elected, I shall continue to give
the schools the best service of which
I am capable.

VELDT MARKS ITS DWELLERS

Loneliness and Silence Affect Those
Doomed to Live in Plain of
British South Africa.

Before the Boer war there was a
saying current among the Boers of
South Africa that you could always
recognize a man who had spent five
years on the veldt. This was a saying
no less true then than now, for the
veldt is a place of great silence and
loneliness and it leaves its mark on
those who dwell in it.

The veldt is the great plain of what
is now British South Africa, the limit-
less, featureless stretch of prairie dot-
ted with knobs of hills that the Boers
call kopjes, pierced and gashed by
rain-washed gullies that run their
twisting course from horizon to hori-
zon. The word "veldt" is closely al-
lied to the German word for "world" or
"universe," and the relationship is
something more than mere coinci-
dence. To the man standing in the
midst of this plain it seems to extend
in every direction to the outermost
limits of space.

The veldt is without sound or color,
without striking features to catch the
eye. A day's trek among low hills
covered with gray grass, plods wear-
ily through mile after mile of the same
hills, and ends in a dry valley as like
the valley of the morning as one pea
is like another. After a few days of
this the traveler wonders if his progress
is not a mere illusion, if he is not
returning day after day to the same
spot.

Now and again the monotony is
broken by some veldt farm, a place of
exceeding loneliness for the exiles who
till it. There will be a farmhouse, a
barn, a kraal, a well and a few huts
for the kaffirs. To the railroad may
be a distance of anywhere from 20 to
70 miles. Half the year the roads are
impassable. The little community
must be sufficient unto itself. Life on
a veldt farm is a severe test of the
inner resources of man or woman.

Mongoose as Cat Understudy.
Islands in the tropical or semi-tropi-
cal seas furnish ideal conditions for
rats, and in many instances they have
increased until they have become in-
tolerable pests, threatening the total
ruin of the inhabitants. On one sugar
cane plantation in Puerto Rico 25,000
rats were killed in less than six
months.

In Jamaica an effort was made to
suppress them by introducing the mon-
goose, which resulted in the establish-
ment of a second pest. In the Ha-
waiian Islands the introduction of the
mongoose caused the rats to take re-
fuge in the tree-tops, where many of
them have nests and have arboreal
habits, like squirrels. Wherever present
on these islands the mongoose has
rendered it exceedingly difficult to
raise domestic fowls of any kind.—

"Twilight Sleep" Has Competitor.
"Twilight sleep," it is said, will be
superseded by the use of nitrous oxide
gas to make childbirth pain-
less. The latter gas, the new use of
which was discovered by Dr. Carl
Henry Davis, in Rush Medical college,
is practically harmless, while "twilight
sleep" is regarded by American doctors
as being extremely dangerous to the
patient.

Nitrous gas, according to Doctor Davis,
deceases all pain, but allows free-
dom of thought and action. A patient
under its influence can follow instruc-
tions, and it need be inhaled only in
small quantities and at infrequent in-
tervals to be successful.

All men are born equal, but they
mighty soon get over it.

Excellent Laxative For Elderly People

As we pass the prime of life the
various organs of the body have a
tendency to weaken, especially
the bowels. Regularity in this
important function is so essential
to good health that old folks
should be very careful to avoid
constipation. A congestion of
stomach contents in the bowels con-
stitutes indigestion, headache, drowsi-
ness, after eating, biliousness,
aching limbs, flatulence, and
should be corrected immediately;
it is the direct cause of much se-
rious disease.

WILLIAM E. MILLER

Candidate for re-election to Board
of Education makes statement to the
public.

After several years membership of
Board of Education, I consider it a
great honor to be connected with a
public school system of the high
standard and reputation of the New-
ark schools.

Our schools have grown in reputa-
tion until they are recognized not
only in Ohio but throughout the
middle west as among the best pub-
lic schools in the country.

During the years I have been a
member of the Board, I have fear-
lessly advocated those things that
have proven of worth to the schools.
If re-elected, I shall continue to give
the schools the best service of which
I am capable.

I have always been in favor of
well paid teachers, and only regret
that the Board's finances have not
permitted the board to pay higher
salaries to teachers.

I have been in favor of good build-
ings, and think it is about time that
the east should have better build-
ings than the two old buildings now
in use on East Main street.

I favor progressive methods, pro-
gressive teachers, including prin-
ciples, and superintendent and believe
that such is our present school sys-
tem.

My efforts shall be to work and
vote for the best interest of the
schools, and thus serve the highest
interest of the children and the pub-
lic.

Respectfully,
11-2-d-2t WM. E. MILLER.

SCHOOL BOARD CANDIDATE MAKES A STATEMENT

Dr. Clark B. Hatch makes the
following statement as a candidate
for member of the city Board of Ed-
ucation.

1. I am a candidate for member
of the Board of Education, because
many citizens interested in our pub-
lic schools urged me to become a
candidate. I feel it a duty as a
good citizen to stand for this im-
portant office.

2. I believe that Newark children
deserve the best schools that it
is possible to give them, and that
the money spent upon education
returns to the city better citizens,
therefore I favor a liberal policy to-
ward the schools, but I want every
penny to bring some return to the
school children.

3. I have two children in the
public schools. I want them to have
the best schools possible, but I want
all other children of the city to have
just as good a chance.

4. I am in favor of the best
text books, and at the lowest possi-
ble cost to children, and free just as
soon as the city's finances will per-
mit.

5. I believe that every section of
the city should have equally good
buildings. These buildings should
be such as to promote the best
health of children. We should have
school rooms enough in each build-
ing to avoid the crossing of danger-
ous railroad tracks by small chil-
dren.

6. Newark school teachers, if
devoted and trained for their work,
should be paid salaries in keeping
with the services which they render.
Teachers usually are the lowest
paid servants of the public.

7. If elected to the board I shall
perform my duties to the best in-
terest of the Newark schools and
I shall certainly want the schools to
be kept to the high standard now
existing.

MARKEN ISLAND OLD STYLE

Ancient Manners Are Still Observed
and Historic Costumes Are Worn
by the Inhabitants.

Marken Island is a bit of the old Hol-
land, an inlet lying in the Zuider Zee
not far from Edam, of cheese fame.
Holland is rapidly becoming modern-
ized nowadays; the blue bloomer of
the canal boatmen has gone the way
of the wooden shoe, well toward ob-
livion, although the latter, it is said,
is becoming increasingly popular with
the price of leather soaring, writes
Nilsen. The Dutch are rapidly aban-
doning the old ways that endeared
them to the artists of bygone gen-
erations, so that any spot where the tradi-
tional customs are still preserved is
worthy of note as a living museum of
history.

Such a spot is Marken Island, where
old manners are still followed, and the
old costumes still worn. Separated by
only a narrow channel from the pro-
gressive mainland, it is none the less
fifty years behind the times. It seems
to be characteristic of small islands
that they progress much more slowly
than mainland whence their people
came. Thus in the Arran islands off
the coast of Ireland the old Irish
tongue is still spoken; in the Hebrides
men still live as they lived in the days
of Scott, and on Marken island the
men still go down to the fishing boats
in bloomers and wooden shoes.

The dark blue bloomer is the mark
of the married man, while the single
men wear white—a somewhat illogical
arrangement in view of the facilities
for laundry work that married men
ought to have. The women wear the
old-time costumes and carry their
knitting about with them on the streets.
Every one of the houses is exceed-
ingly small and almost unbelievably clean.
There are not more than 300 people all
told in this little colony of fishermen.

Marken is quaint and old-fashioned,
but it lacks the touch of self-uncon-
sciousness to make it perfect. In all
the little shops you can purchase pic-
ture postal cards depicting scenes that
are "quaint" and "typical." And when
a region begins to realize that it is
picturesque it has taken the first step
on the road to the commonplace.

NEW METHODS OF FIGHTING

Modern Warfare Is Carried On Under
Water, Under Ground and in
the Clouds.

"Digging in" has a new and impor-
tant significance and the fantastic le-
gend of Darius Green is long forgotten
in the light of practical achievement
by the bird-man of today. The cavalry
of the earth has been supplanted by
the cavalry of the air. The actual
fighting of modern warfare is conduct-
ed under water, under ground and far
up among the clouds.

Yes, there have been drastic changes
in military tactics and military equip-
ment since the old days when we used
to drill in the armory over the grocery
store in the little old home town.
What we tried so hard to learn of mil-
itary lore in those days would be
classed as low comedy by a recruiting
officer of this changeable period. But,
all the same, one can't help wishing
that one were somewhere in France at
this minute with good old Company C,
—th regiment, of the National
Guard, and we'd make a reasonable
wager that, of the survivors of that or-
ganization, if given an opportunity to
go, there wouldn't be a slacker in the
bunch.—Exchange.

Powerful Aero Engines.

In testing an airplane engine of 200
horse power a Detroit company mount-
ed it upon a heavy motor truck, and
the serial propeller sent the truck fly-
ing along a boulevard at the rate of
more than 40 miles an hour. This was
a speed that the truck could not be-
gin to develop under its own motive
power, and the method furnished a bet-
ter practical test of the 12-cylinder
airplane engine than was possible in
the testing laboratory or in any sta-
tionary trial on blocks. As an addi-
tional test the rear wheels of the
two-ton truck were locked, so that they
could not revolve, and in this condition
it was driven across a ball park by the
airplane engine and propeller through
heavy drifts of snow and over ice. The
motor weighs 900 pounds and develops
power sufficient to drive a 12-passen-
ger airplane at 40 miles an hour.—

Discoveries in Palestine.

The discoveries which the British
and Indian troops are making in Pale-
stine of old churches and their sacred
dust have reminded one of the soldier-
of Sir Henry Layard's description of
the excavators at Nimroud. When the
first of the enormous figures began to
appear above the earth Arabs raced to
him—"Hasten, O Bey, for they have
found Nimroud himself. Wallah, it is
wonderful; we have seen it with our
eyes. There is no God but God!" And
they hid them in terror to their tents.
The Anzacs were filled with different
emotions, for like all the forces their
ranks are furnished with highly edu-
cated as well as men of the old type of
privates.

Won His Lost Watch.

An extraordinary watch story is told
by a Welsh campaigner home on leave
from African battlefields. When he
was in German West Africa he lost a
wristlet watch. It was not very val-
uable, so he did not worry a lot about it.
But many months later, when on ac-
tive service in German East Africa, he
took a share in a raffle for a watch. He
won, and to his amazement found that
the prize was his own watch.

No man is so fast that retribution
won't sooner or later overtake him.

CANDIDATE FOR TOWNSHIP TREASURER

licits your vote tomorrow for Town-
ship Treasurer. This is his first ap-
peal for political preferment of any
kind. He has been an employee of
The American Tribune for 13 years,
and is president of Typographical
Union, No. 69. Candidates for all
township offices will be found on the
separate Non-Partisan ballot, accord-
ing to law. Newark township in-
cludes the city of Newark and ad-
joining territory north, south and
west. Candidates for trustee, clerk,
treasurer and constable will be found
on the Non-Partisan ballot. You
who live in the city proper will be
given six ballots to vote tomorrow,
the municipal, township, judicial,
board of education, wet and dry and
woman suffrage. None of them are
very large and can be voted in a
short time. Once again, don't over-

IMPORTANT STATEMENT BY HARVEY J. ALEXANDER

MR. VOTER:
Will you be one of the 4000 voters tomorrow who will vote as you

Make your mind up right now and say to yourself: "I will most cer-
tainly vote for Harvey J. Alexander, because we know where he stands.
He has always looked out for the people's interest! fought the icemen;
was one of two councilmen who would not vote to increase the gas-rate;
he would not stand for a division of the gas escrow fund, and has saved us
citizens about \$150,000 because of his stand. The citizens ought to stick
to him, because there are some more propositions coming up in the future,
and we ought to have a man we know WE CAN DEFEND ON. They are
trying to work the 'wet' and 'dry' stuff against him in various places, and
are fooling a few near-sighted voters, so certain interests will not have
him to deal with, but not me! I KNOW WHERE HARVEY J. ALEXAN-
DER STANDS, and I will be one of the 4000 men who will vote for Alex-

"The records kept by the treasurer are complete in every detail. The receipts and disbursements of each fund are kept separately and in such a manner that the actual balance can be ascertained at any time by glancing at the books. In addition to the above record, Mr. Frye keeps a record of all investments and all security furnished by each of the depository banks."

"That the treasurer is very much interested in the performance of his official duties is evidenced by the neatness and accuracy in which his records are kept and the promptness in which the business of his department is dispatched. We have nothing but favorable criticism to offer."

GOV. BRUMBAUGH TO REVIEW TROOPS OF STATE IN OHIO CAMP

(Associated Press Telegram.)
Camp Sherman, Chillicothe, Nov. 5.—Governor Martin G. Brumbaugh of Pennsylvania is going to pay Camp Sherman an official call next Monday, Nov. 12. There are 4,000 western Pennsylvania selective draft men here with the Ohio troops and he is coming down to visit them.

A telephone message to Major Glenn from Philadelphia brought the word. Eleven members of Governor Brumbaugh's staff and ten women will be in the party, and they will spend at least a half day in the camp.

Immediately upon receipt of the message, Major Glenn started the ball rolling for the second big review of the 36,000 troops now making up the population of this training camp. The first one was given complimentary to Governor Cox two weeks ago.

Few of the west Pennsylvania men have had the opportunity to go home since reporting at Camp Sherman and steps are to be taken immediately to arrange a general Pennsylvania celebration when the governor comes. The men are anxious for relatives and friends to organize parties and spend the last of this week, Sunday and Monday, here if possible.

An effort will be made to whip the negro troops into shape and have them completely uniformed so that they can take part in the pageant. Nearly four thousand are here now. None were at camp when Governor Cox visited here.

Announcement was made today of the white officers who have been assigned to the negro regiment. Colonel Earl J. Brown of the National Army will be the commanding officer. Lieut. Col. Henry A. Finch is also a National Army man. The others are from the officers reserve corps as follows: Captains Frazier C. Hilder, Richard W. Reading, David J. Castleman, Willis R. Tenney, Gordon T. Whelton, Samuel M. Kearns, Gustavus A. Loeb, Edward R. Quimby, Chester B. Starbird and Sidney P. De Lemos.

Most of the negro officers now are here and have assumed the personal leadership of the negro units. Telegraphic orders were received from Washington today to transfer regional sergeant Major Lowell McGee, who has been at division headquarters, to a field clerkship. He will take a place made vacant by transfer of Walter D. Murphy to the headquarters of the central department, Chicago, and Harlow C. Halabird, ordered to report at Hoboken, New Jersey.

French officers and non-commissioned officers here are to assist in teaching officers and men in the French language, it was made known today. They will work in conjunction with instructors brought here from various colleges of Ohio, through instrumentality of the Y. M. C. A.

The Frenchmen also are to start their instruction work in war practices in the various units this week. No time is to be lost in getting down to the rudiments of trench warfare. They will be handicapped because of lack of guns but dummies will answer first purposes.

A continuous vaudeville show during the week of Thanksgiving is being planned by a theatre manager and some others of Cincinnati who probably will get the use of the Central Y. M. C. A.

STILL WAITING

The people still wonder
who the "Home Rule Association" is.

Blobs—"Oh, there are more ways than one to kill a cat." Slobs—"Yes, if you believe the old superstition there must be nine ways."

Y. M. C. A. DRIVE FOR \$35,000,000 ABOUT TO BEGIN

Citizens of Newark and Ohio, as well as those of every other city and state in the nation, are marshalling their forces for the big campaign for funds which will be started by the Y. M. C. A. next week. It will be, undoubtedly, the most notable "drive" of its kind ever attempted. Newark is to be asked to give \$15,000 and the county outside of Newark the same amount.

The uniqueness of the campaign lies in its purpose and motive. While the nation is raising money to prosecute the war—the destructive phase of the present international conflict—the Y. M. C. A. is asking for money to prosecute the constructive, or humanitarian work.

The United States is asked to contribute the sum of \$35,000,000 for Y. M. C. A. army work. Of this total, Ohio's share will be \$2,750,000. Money already raised for this great work is now financing the activities of the Y. M. C. A. on a half dozen battle fronts and at home, among the soldiers in the trenches and those in the training camps.

The money to be raised in the campaign, beginning Nov. 11 and closing on Monday, Nov. 19, is to be used in financing the war work of the Y. M. C. A. during the nine months ending June 30, 1918. The total is to be distributed as follows:

For work with the United States enlisted men in this country \$11,120,000; for work among the United States enlisted men overseas, \$11,994,000; for Y. M. C. A. work in the Russian army, \$3,305,000; for Y. M. C. A. work in the French army, \$2,649,000; for Y. M. C. A. work in the Italian army, \$1,000,000; for Y. M. C. A. work in the prison camps, \$1,000,000; to provide for the inevitable expansion in connection with the work, \$3,932,000. Total, \$35,000,000. The Newark campaign is to start Monday evening when the 200 workers will meet and organize for the solicitation which begins the following morning.

WE INVITE YOU TO GATHER UP THE THREADS WITH US

Much has been said on both sides of the prohibition question; some that is to the point and much that is intended to obscure the real issue.

There is of course the taxation dodge but the real "thinker" knows that if an army without booze is better prepared for war, a people without booze can better earn money to support that army.

There is the Red Cross dodge but the "thinker" knows that none contributed more generously in service or in cash than those who vote dry. We have money to "Kan the Kaiser." ALSO HIS TWIN, JOHN BARLEY CORN.

There is the loss of employment dodge. But the "thinker" is reminded that for those who will really work, there has never been a time when good jobs at good pay were so plentiful. It has been said that 100,000 Ohio men would lose their jobs. World's Work in a recent issue said that in all the United States there are only 200,000. The "thinker" knows that Ohio does not have half the booze business of the nation.

World's Work is considered dependable. Some may move out. Ohio will be better without such. What about the bums and barflies who will flock in from adjoining states if Ohio stays wet?

LAST BUT NOT LEAST is the crowning inconsistency of railing against bone dry prohibition while still trying to prove that more booze is sold where the saloons move out. No "thinker" ever claimed that prohibition laws are never violated. All laws are violated more or less. None so often as our "Model License Law."

No amount of faked news items, faked interviews or alleged court records will offset the fact that where people try prohibition they retain it. We have published letters from Governors, Judges, Editors, Mayors, Chiefs of Police, Business Men, Masters of Granges and many other really dependable "thinkers." Their testimony is uniformly in favor of prohibition.

The men who dictate the policies of the great dailies of Ohio that have espoused the dry cause recently—The Plain Dealer, The State Journal, The Dispatch, and others are not asleep.

"THINK!" Are these men all either liars or imbeciles? And does all wisdom, truth and virtue vest in the Licking County Home Rule Association. The Packard people are right. Ask the man who owns one.

The real "thinker" says "VOTE DRY"

We claim that the city government run by a political party is a government, the expense of which Is More Than it ought to Be.

The Political Machinery when operating a City Government must be Paid for doing so.

1st. Men who have rendered party service must be put in positions of employment whether they are fitted for the place or not and you get inefficient service.

2nd. Positions must be made and filled by party workers at good salaries as a reward for political work.

3rd. If a man is not efficient or goes wrong when in office the party in power protects him by keeping the facts from the people and covers up his rascality because it will injure the party's chances at the next election.

4th. Work is done in the city in parts where some strong party worker desires it whether it is proper or not because men who serve the party and help put it in power must be re-

warded, consequently there is no system to municipal improvements and local benefits are served.

5th. Representatives from different wards of the city must have things done in their particular wards so that their people will be satisfied to return them to office.

These things and other things must be done by the party in power in order to perpetuate itself in power and win the next election.

These things all cost money and the taxpayer pays the bill. It has always been so and will always be so as long as the people permit political parties to run the city's affairs.

The moral is do away with political parties in the running of the affairs of the city and put it on a business basis.

MORE THAN THIS, HOWEVER UNFIT A CANDIDATE OF A POLITICAL PARTY IS HE CLAIMS THE SUPPORT OF HIS PARTY FOR THE ELECTION. PARTY PREJUDICE AND PARTY ALLEGIANCE WHITEWASHES AN INEFFICIENT MAN JUST BECAUSE HE IS THE CANDIDATE OF THE PARTY. THIS RESULTS IN NO SMALL AMOUNT OF EVIL.

ELECTION RETURNS
Returns read from the stage, Tuesday night.

at night. Yesterday a great many people enjoyed seeing Douglas Fairbanks in "Double Trouble," with the added feature the famous Mutt and Jeff cartoon. Improvement is also noted in the orchestra—piano, violin, cello and xylophone. Some of the popular play house stars to be seen at this popular play house are Elsie Ferguson, Ethel Clayton, Mame Petrova, Frankie X. Bush, June Elvidge, Carlisle Blackwell, Mary Miles Minter, William Russell, Gail Kane, William S. Hart, Douglas Fairbanks, Harle Lockwood, Ethel Barrymore, Viola Dana, Edith Storey, and a host of others.

Tonight and tomorrow Madame Petrova in "To the Death," with an added feature, Victor Moore in his comedy sketch. The Alhambra is always inviting.

Tonight and tomorrow, the star of the Metro wonderplay "To the Death," was born in the now war-torn Warsaw in unhappy Poland. Some of the tragedy of that historic country appears to live in the soulful face of Madame Petrova and finds expression through her dramatic ability. Madame Petrova made her debut in motion pictures with Metro and has proved one of the biggest favorites of the screen. She has starred in such notable productions as "The Yampies," "The Madonna," "The Scarlet Woman," "The Heart of a Painted Woman," "What Will People Say," "Painted with Fire," and "The Eternal Question."

Wednesday and Thursday, "Over 900 nights," "The Corner Grocer" was played in New York City. Its immense popularity being due to its intense humanness, its heart interest and its delightful story. Now by World-Pictures Brady-Made it is being presented as a screen play and it is certain to be an even greater success as a silent drama than it was on the speaking stage. Lew Fields plays the stellar role in the production, that being the story of Charles Wendell, the corner grocer, whose heart was big and whose capacity for suffering was great. He was the only one of Evans appears with Mr. Fields in the role of Mary, the little orphan.

GRAND.
In the new Greater Vitaphone Blue Ribbon feature which will be the attraction at the Grand theatre, only on Tuesday, there are several scenes showing actual life on a western cattle ranch. Antonio Moreno shares honors with Mary Anderson in the picture takes the part of a cattleman and the scenes show him, with a number of cow-punchers, taming broncos, branding cattle and responding to a call for the sheriff's posse. The scenes were taken on a ranch near the studio and pictures of actual happenings in the ranch corral on that day.

AUDITORIUM.
Saturday Show.
"Mutt and Jeff" paid their annual visit to Newark Saturday, appearing at the Auditorium theatre afternoon and evening to capacity business. The play has appeared here for a number of years but the company last Saturday broke all previous records. Marty Healy made good as "Little Jeff" and John Gorman as "Mutt" divided the honors. These two famous cartoon characters are known to nearly every man, woman and child in the United States. The balance of the cast was in capable hands, the chorus was splendidly costumed and the song numbers made a big hit.

The theatre was tax which the government will receive as its share of Saturday's receipts amounts to \$115. Ten percent is charged on each dollar admission but this did not affect those desiring to see the production. Manager Fenberg has to settle with the government the 2th of each month and as the war tax of two cents now prevails at the Auditorium it will mean a substantial monthly sum.

Tonight.
Amusement seekers today will find some program at the Auditorium theatre. Three big features, Elsie Ferguson, who appears in the Arcturion production of "Barbary Sheep," "Tom Mix," Fox Film Comedian, who is seen in the two-reel Fox comedy "Tom and Jerry Mix." This comedy yesterday kept 3,000 persons in continual laughter and no doubt will repeat the same dose today. The Hearst Pathe News today has current events that are sure to please. The war section being especially interesting.

In keeping with the progressive policy

of his theatre, Manager Fenberg of the Auditorium announces one of his greatest coups in the history of his playhouse in popular Elsie Ferguson's first motion picture, "Barbary Sheep." One of the most interesting stars in theatrical circles, Miss Ferguson left the orbit of the stage several months ago to appear before the motion picture cameras for Arcturion Pictures. In a screen version of this famous book by Robert Hichens, Elsie Ferguson may be numbered among the very few stage personages who have repeatedly refused extraordinary monetary offers for film engagements, firm in the belief that her efforts before the camera could not exceed her work on the stage. Her realization of the fact, however, that before long, the cinema would reach a point where her efforts would do full justice to the film amusement public, and such as has always been ambition to present, came several months ago. Quietly she studied the work of the players on the screen and noted the constant improvement in photoplay technique. Miss Ferguson finally entered the film world, not because of its no Arcturion because of a chance for accumulating a fortune, but because it holds out to her possibilities for achievements never before realized in even her triumphant career. One of the theatre's most faithful exponents of the true dramatic art, Elsie Ferguson advent to the screen marks a distant achievement for the motion picture patrons.

Tuesday and Wednesday.
The Auditorium offers in connection with its regular program tomorrow and Wednesday, Roscoe (Fatty) Arbuckle, Filmdom's greatest laugh producer, who is seen in his latest comedy "At Coney Island." In this Arbuckle is seen at his best. This feature was taken at Coney Island, N. Y., and to anyone who has not visited this famous resort, the scenes shown will be a revelation, as it shows this resort in its entirety—the famous boardwalk, the amusement parks, the life and many other famous places in this world known summer amusement park. Tomorrow night full return of the national and local elections will be read by C. B. Curlee, a noted entertainer, who will enliven the evening with songs and stories. The evening entertainment is assisted by the clever pianist James E. C. Kelly.

Now where can you beat it? Seeing a splendid entertainment, hearing the returns and hearing Newark's most famous orchestra, E. Cochran's All Solos Musicians at The Auditorium Theatre.

Auditorium Notes.
George Walsh, who made good at the Auditorium yesterday returns for one day Thursday next, when he will be seen in one of his best successes. This picture although seen here sometime ago, proved to be one of the best he had so far appeared in.

Mr. Fenberg of the Auditorium positively announces the screening of "The Lone Wolf" for his house on next Friday and Saturday. This picture with Hazel Dawn and Bert Lytell, produced under the directorship of Herbert Brenon, in eight reels is said to be one of the most

thrilling features ever sent out by the Selznick Productions company. Newark show-going public helped Uncle Sam to the tune of something like \$119, at the Auditorium Saturday, where "Mutt and Jeff Divorced" was the attraction. New York City alone will give government \$100,000 a week, this is the estimated amount.

The Auditorium yesterday held crowds all day, the war tax not interfering at all with the crowds for they came with a rush and George Walsh pleased greatly with "A Yankee Way."

What Is The Matter With Newark NOTHING!

We are just ending four years of Republican administration of affairs of the city of Newark, the best ever given by any party.

Our candidate for Mayor is DAVID H. MURPHY, a Union Workman. Mr. Voter if you can find anything wrong in Newark, remember a professional or business man has administered the affairs of the city.

You have an opportunity now to try one of our own brothers, his record as a Union man is clean. Let us show that we workingmen can and will stick together.

Let us elect DAVID H. MURPHY as Mayor and show to the people of Newark that one of us can administer the affairs of the city as well as a professional or business man.

Let us stand together, responsible for our brother and see that he makes a record for us.

GEORGE H. HAMILTON,
Chairman Republican Executive Committee.

LICKING COUNTY SOLDIER BOYS

Editor of the Advocate:—Please accept my thanks for the medal which the people of Licking county presented to me. I certainly appreciate it, and will always hold a dear memory for the many things, which the generous people of the best county on the map, have done for us. I hope, that when the time comes for actual service, we may be able to serve our country far beyond your expectations. With thanks and best wishes to all, I remain, your friend, Ernest H. Born, Bat. RAYMOND MINOR.

Here is a picture of Raymond Minor, son of Joseph Minor, 10 Western avenue, who is in the United States navy on board the U. S. S. Ohio.

The "eats" from home are the envy of those boys in training camps who do not get them, according to a letter from Clifton I. Grimm, Co. 60, U. S. Navy Operating Base, Norfolk, Va., to his mother, Mrs. C. C. Grimm, 69 North Second street. Young Grimm got a box of dainties from his mother and called Merle Martin and others of his quarters and "had a party. The letter follows:

I received your letter saying you had gotten home from New York and glad to hear you had a good time. Dan Ryan was over to see me yesterday and he sure looks fine.

I got a letter from Leslie Merri-man and he says it is very cold on the water.

I am going to try to get in as blacksmith as the test isn't very hard and the work isn't hard either.

I bought a fifty dollar Liberty Bond today. They are going to take it out of my pay at five dollars a month.

Nearly every fellow in the camp

got one and as there is about two thousand men here they got about a hundred thousand dollars.

I have been out on liberty, that is what they call it when they let us go out of the camp and uptown.

I was in Norfolk all Sunday afternoon, visited the Y. M. C. A. and out to the park, consequently I am broke and won't get my pay until the fifth of the month. They only give us three dollars every two weeks and the rest of our pay they keep until we are out of the training camp for good.

The other day we had captain inspection. We had to stand up and the captain of the station marched by and looked us over and believe me it is just like the little book says. It goes hard with the fellow he finds dirty. He found one fellow dirty and he also had on three suits of underwear. He put the fellow up on a box where we all could see him and then he gave him a calling down and he has to stay in camp two weeks without liberty. I wasn't the fellow though and am sure glad of it. The liberty comes to us twice a week, Wednesday and Saturday.

My vaccination took and my arm got a little sore but it didn't last long.

I am waiting my turn to go to the dentist to have my teeth fixed. I

VICTOR SMITH.

could not get them fixed in the other camp and the dentist just came to this camp today.

The chicken cake, etc., arrived safe and sound and sure tasted good.

The fellows stood and watched while I opened it and you should have seen their eyes when they saw that chicken and home-made bread.

I got Merle Martin and the fellows in our bungalow and we had some party.

The fellows said to thank you as they had enjoyed it more than anything they had since they came here.

Well it is about 8 p. m. guess I had better put out the clock and wind the cat and go to bed.

Two fellows just fell out of their hammock, one right after the other, one landed on his feet and one didn't.

The rest of us laughed but they couldn't see anything funny in it.

The boys in camp envy us our medals so kindly donated by the people of Licking county. I certainly am proud of mine.

MUSIC

There is great joy in Columbus and surrounding country over the announcement of the coming of the famous Irish Tenor John McCormack, to Memorial Hall, December 4th, in a song recital. Mr. McCormack comes under the management of Miss Kate Lacey, which assures the success of the concert. Mr. McCormack's record—"The Star Spangled Banner" had the greatest one month record sale of any record put out by the Victor people. From Sept. 1st to Oct. 1st in Ohio alone, there were 450,000 sold. John McCormack, like Mme. Schumann-Heink, is a household word and an international institution, which all America loves to honor. Miss Lacey reports the prices of tickets \$1.00, \$1.50 and \$2.00 plus the war tax.

RELIGIOUS FREEDOM ASSUMED FOR POLAND SAYS CONSTITUTION

(Associated Press Telegram)

Berlin, Sunday, Nov. 4, via London, Nov. 5.—The constitution of the new Polish state is a document containing nine paragraphs and one hundred and fifty-one articles. Professor Cybichowski, of Warsaw, who was commissioned to make the draft which was approved by a former state council, states that the charter contains the following provisions:

Poland to be an independent constitutional state.

In view of the fact that an overwhelming percentage of the population is of Roman Catholic faith it is ordered that the ruling house be of the same faith.

Catholicism is prescribed as being the official religion to be recognized in connection with state functions and official ceremonies. Beyond that full freedom of religious belief is vouchsafed.

The state is to be a hereditary monarchy, the diet to elect the ruler and control the dynasty's affairs and succession.

If the king marries without the consent of the diet he forfeits his crown. This proviso is intended to preclude the possibility of a feminine member of an unfriendly power attaining the throne.

The king is obliged to reside constantly at home and is not permitted to be represented through a substitute authority or be sovereign of another state at the same time. This disposes of the rumor that Emperor Karl will be proclaimed king of Poland.

Parliament will consist of two chambers, the lower house to be elected on the basis of a general secret direct ballot of one deputy to every sixty thousand inhabitants. Half of the senate will be elected, the remainder to be appointed by the king. Deputies will serve five years and senators ten.

Charles McNeal, well-known sign
painter, brought 5 1-2 tons of coal
from the Porter mines, near Zanes-
ville, to Newark, Monday morning,
in a large Sterling truck. He made
the trip of 19 miles in 2 1-2 hours.
Mr. McNeal said he had six of these
trucks working on a pike near Wash-
ington C. H. He demonstrated to
the citizens that cold could be
brought to Newark in trucks as well
as by cars.

**DENISON STARS HELP
CAMP TEAM IN VICTORY**
Roudebush and Rupp, of the old
Denison University championship
eleven, helped Camp Sherman's
football team in a victory Satur-
day, over the team representing
Camp Taylor of Louisville, Ky. The
game was played at Hamilton and
resulted in a score of 26 to 7. The
two teams are composed of big col-
lege stars now in the service at the
cantonments, and many a noted ath-
lete got back into the real college
sport with a vigor which pleased the
big crowd.

NEWARK'S FIRST & ONLY

Bargain Basement

WEDNESDAY, November 7th will mark a new era
in Newark Merchandising, when the **BOSTON**
STORE opens its **UNDERPRICED BAR-
GAIN BASEMENT**; especially at this time when shortage
of merchandise is becoming more acute daily and prices soaring
way above the head of the consumer. But our plans for this
Underpriced Bargain Basement were laid more than
a year ago, and we shall carry them out to the letter, despite
recent revolutionizing changes in market conditions. **"EVERY-

quate wage rate. It has a direct bear-
ing on the termination of the war.
Discussing the question of deferred
maintenance made necessary war
time demands, Mr. Rea said, that if
the proper maintenance charges are
not included in the operating ex-
penses, "the net operating income and
the net corporate income are to
that extent over stated."
This condition, he added, is lead-
ing to heavy wear and tear on track
and rolling stock, "without making
proper charges to operating ex-
penses."
Concluding his plea for rate ad-
vance Mr. Rea declared:
"If this commission takes the
view of this situation which I hope
it will, the result will be felt in the
future financing of our improve-
ments as it will give confidence to
those furnishing such capital. If
this commission permits the rate of
these carriers to be increased to
such an extent as to return them ad-
equated net operating income and
maintains them upon such a basis the
effect upon the financing of their
needs will be very great and will
tend to re-establish the confidence
of investors."
John Skelton Williams, comptrol-
ler of the treasury, in a formal state-
ment today, declared that present
railroad rates are insufficient to
maintain the credits of the road and
predicted that the interstate com-
merce commission will grant the re-
vision now being asked by the roads.

HERBERT ATHERTON'S LAWLESS
ADMINISTRATION.
The black-sheet printed in Colum-

at the last hour containing the rank-
est kind of personal attack upon the
men interested in the Independent
movement for mayor, is what you
might expect of the people who have
been managing the Atherton cam-
paign, and is an indication of what
the citizens of Newark may expect
to characterize the administration of
these individuals if their candidate
is elected. This sort of thing is re-
cognized by the Ohio statutes in its
proper character and a penalty pro-
vided for the circulation of such po-
litical venom without signature.
Men who will do this underhand-
ed, illegal business to influence the
voters of the city, are unworthy of
the city and unworthy of you, Mr.
Voter. He brands himself as an out-
law. The circular is not signed, and
the statutes of this state, passed last
winter, makes this act a crime under
our law.
The Democratic nominee and his
committee are beginning right early
in their lawless conduct. What will
Atherton do if elected mayor? Vote

PROHIBITION
HOW THEY LIKE IT WHERE THEY HAVE IT
CITY OF PORTLAND, ORE.
Office of the Mayor.
H. R. Albree, Mayor.
MARCH 20, 1917.
MR. G. G. BARBER,
301 Trust Building, Newark, O.:
Dear Sir—I have your letter of the 15th inst., stating that you are
interested in the prohibition question and would like to know how it has
worked here. In reply, I am enclosing a copy of letter written in reply to
a similar inquiry, as it contains much information that will be of interest
to you.
Yours very truly,
H. R. ALBREE, Mayor.

Extracts From Above-Mentioned Letter.
The following data regarding the effect of the prohibition law in this
city has been gathered from various sources, and is submitted herewith
for the information of those who are interested in conditions resulting
from such enforcement:
"W. M. Ladd, president of the Ladd & Tilton Bank, of this city, states
that bank clearances for the ten months of 1916 are larger than for the
like period of 1915 by \$60,000,000.
"Six of the leading dry goods and department stores were consulted.
One reported no change; the remaining five announced that business was
better than in the same period in 1915. The one that reported no change
explained that the total for the period had not changed, but months since
the severe storm have shown a big increase, which has just about balanced
the loss in trade during the storm period.
"The Henry Weinhard estate, which formerly conducted a large
brewery here, and which is now engaged in the manufacture of soft drinks,
recently distributed a circular at a picnic held near Portland, stating that
their plant was running at 'top notch.'
"In regard to the manufacture of loganberry juice, one concern alone
is said to have had an output of \$750,000 this season.
"Mrs. Lawrence, who conducts a home for 'down-and-outs' in the
country, appeared before the council some time ago and stated that she
would have to go in some other line of business, as she had lost most of
her people. In the same connection, Captain Andrews of the Salvation
Army, declared that the city is over 90 per cent better, morally, now than
previously.

"Speaking for the Oregon Social Hygiene Society, Mr. W. F. Wood-
ward (who is also at the head of one of the largest wholesale and retail
drug businesses in the city), makes the following statement:
"General diseases, since the first of the year, have shown a won-
derful decrease in all three states—Idaho, Washington and Oregon. The
social evil cannot flourish where prohibition is conscientiously carried for-
ward. The manufacture and general sale of beer is but another step to-
ward a return to old conditions. Commercialized prostitution depends
on the sale of intoxicants, and particularly the mild intoxicants, for
professional exploitation of womanhood. The remarkable diminution of
venereal diseases is one of the results which has followed the enforcement
of our present prohibition law; if it could but be made absolute it would
be another step forward."

"In regard to the matter of employment, A. W. Jones of the Municipal
Employment Bureau, is quoted in an evening paper of this city, as fol-
lows: 'There are as many men here as ever, but they will not work as
cheaply as before. The reason is that they keep their money instead of
spending it with the saloonkeeper. . . . It is no longer possible
to get men for \$2.00 a day. Six months ago a lot of men would have
jumped at the chance. It is because fewer men are at the point of dis-
tress, for whatever money they do earn goes further than it did when the
saloons were here.'"

'GRANDEST EVER' SAYS MRS. BELL OF NERV-WORTH

When All Else Failed This Famous Family Tonic Brought the Answer.

A wholly new signed endorsement this time from a Martinsburg, W. Va., user:

"I was very weak and nervous. Shortness of breath. At time I thought I would choke. Stomach was in bad condition and my food seemed to ferment and form a gas which interfered with my heart action. Could not get any restful sleep and was losing my strength so fast that I could not keep up my household duties."

I saw Nerv-Worth advertised and read of the great benefits to others. So I concluded to try it, although other remedies I had used did me no good. One bottle of Nerv-Worth has made a different woman out of me. ALL THE AILMENTS ABOVE MENTIONED ARE GONE AND I have gained weight and strength. I shall keep Nerv-Worth in my house all the time as I think it the grandest medicine I have ever known of.

MILK CONSUMERS ATTENTION

Owing to the greatly advanced cost attending the production and distribution of milk, this Company will advance the retail price of its milk to 10c per quart and 5½c per pint. One quart delivered in two pint bottles will cost 11c.

The above prices will apply upon all deliveries beginning Nov. 3rd, 1917, and upon all tickets sold after 3:00 p. m. Nov. 2nd.

All tickets issued at the old price will be good until used for milk and cream purchases.

MRS. HOWARD AGAIN IS SECRETARY OF AUXILIARY

A state meeting of the G. I. A. to E. of L. E. was recently held in Newark, with Fidelity Division No. 32 as entertaining hostesses. The meeting was attended by the state officers among whom is Mrs. F. M. Howard of Clinton street, who is state secretary. She was presented with a corsage bouquet of pink carnations, the flower of the order.

The mayor welcomed the women to the city and following the business of the organization a dinner was served to 160 in the Christian church. In the election of officers held in the afternoon, Mrs. Howard was re-elected to the office of state secretary.

THOMAS A. BAZLER FOR COUNCILMAN-AT-LARGE

Thomas A. Bazler, one of the three republican candidates for councilman-at-large is making his first venture into local politics and has conducted his campaign upon the platform of "business men for councilmen." He has won many warm friends since he became a resident of Newark and has been active in all movements for the betterment of Newark's business and living conditions. He was reared on a farm but has had 25 years experience in business in Columbus and in Newark.

For nearly ten years he has been in the undertaking business in Newark. He solicits the support of the electorate in tomorrow's election, pledging his best efforts to secure for Newark a business-like consideration of matters which come before the city council.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If cross, feverish or bilious give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-up printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." (Advertisement)

JOY FOR THE MEN AT TEA

Some Good Samaritan Has Invented Oval Saucer That Safely Holds Cup and Dainties.

Any man who knows that, sooner or later, he must go to another afternoon tea cannot but rejoice at the recent invention of an oval, platterlike saucer, large enough to hold with ease a cup, a lettuce or other sandwich, and a dainty trifle of pastry. The thing was needed, the modesty of the anonymous inventor—evidently not Mr. Edison—reveals him one of the large body of occasional and unwilling tea-goers.

We, the reluctant and unwilling, are all strangely alike at these functions; and we have all been embarrassed by the old-fashioned saucer. Circular in shape, and hardly larger than the cup that belies its reputation and dances drunkenly whenever another guest joggles our elbow (which happens so often that we suspect conspiracy), the old-fashioned saucer affords no reasonably secure perch for a sandwich; responds with instant delight to the law of gravitation if left to itself; and sets us wishing, those of us who think scientifically, that evolution had refrained from doing away with an extension by which alone we could now hope to manage it. We mean a tall! If afternoon teas had been started in the Oligocene epoch instead of the seventeenth century, we are convinced that evolution, far from discarding this useful appendage, would have perfected it. A little hand would have evolved at the end of it, such a little hand as might hold his saucer while a gentleman sips from his teacup.—Atlantic Magazine.

WHERE "PEP" WAS NEEDED

Secretary Daniels, Discussing Efficiency, Relates Story of Girl's Advising Beau to Kiss Old Mare.

Secretary of the Navy Daniels is a firm believer in speeding up. Efficiency is the watchword of his department. A big navy can't be built fast enough for him. And he was discussing efficiency and high speed. He wants to cut out red tape.

"Discussion is well and good," said Secretary Daniels, "but the main question is whether it is idle talk or not. Is it practical or is it foolish? Is it like Torkins and his girl?"

"Torkins, by the way, was out with his girl during the days before the automobile, when a young man who wanted to be popular would call on his girl with a horse and buggy to take her for a drive. You know, the faster the horse the better the impression."

"Torkins, on his first call, took the girl for a long drive, and when they found themselves in the midst of a country road, he ventured for a kiss."

"A kiss?" asked the girl. "What good would a kiss do?"

"Oh," replied the embarrassed youth, "it would make me feel gay and lively."

"Well, Charley," the cold-blooded, unemotional damsel retorted, "if it is as you say, and we expect to get anywhere before it's time to return home, you'd better get out and kiss the old mare once!"

Odd Indian Foot Race.

A foot race among the Tarahumara Indians is a most picturesque scene, especially after nightfall, when the course is lit up by flaming torches carried by the eager friends of the runners, who steadily pursue their way, the only silent people in the excited crowd. How in this weird fitful light the men contrive to keep the ball in view is a mystery. One would think that so small an object would be lost in the flickering torchlight; but Indians have wonderful eyes as well as wonderful muscles, and somehow the ball survives all perils and is there at the finish.

In these races the runners receive no prizes, but only honor and glory and the admiration of the women, which no doubt fully repays them. It is, however, customary for those who win wagers on the race to give some part of their winnings to the men who have won; but this is optional.

Splinterless Goggles.

Splinterless goggles are a new development that is expected to be of great value in military gas masks and for aviators, as well as for machinists, welders and other workers requiring protection for the eyes. The lenses consist of two layers of optical glass separated by a layer of celluloid, the whole being perfectly welded together. The product is claimed to have the advantages of ordinary glass without its dangerous splintering on being broken, and the strength of celluloid without its inflammability and lack of rigidity. The heat insulating effect of the celluloid is said also to prevent clouding by moisture.

A Hint From the Front.

A letter from a young man who is now with the Red Cross in France says he is very glad that he took the precaution to study French before he went over there. He says the knowledge is invaluable to him, and that he has no difficulty in making himself understood, because most of the people he comes in contact with can talk English.

War Horses Are Veterans.

Driving the same team of horses for more than three years at the front is the record of a man in the Hussars. He took them to France on August 16, 1914. They have been at Mons, the Aisne, the Marne, Ypres, Neuve Chapelle, on the Somme, and at Arras in April, when Vimy ridge was taken. They have never missed a day's march.
